# QUIZ WHITE HOUSE DOORKEEPER IS QUESTIONED ABOUT WIRE HE SENT TO M'LEAN

## HEAVY DAMAGE IN WAKE OF GALE SEVERAL DEAD AS GALE HITS NEW ENGLAND

**Sent Telegram Informing Him of Sleep's Departure — Other Witnesses Are Called, Including Telegrapher, Who Said His Duties Were Purely Mechanical.**

(By The Associated Press.)  
WASHINGTON, Mar. 12. —H. E. McKenna, chief door-keeper at the White House, executive offices, was called before the Oil Committee today and questioned about a telegram he sent to Edward B. McLean in Florida informing him of Secretary Sleep's departure for the South.  
He said McKenna had asked him to send such a notification and that Sleep had said it would be alright to do so.  
E. W. Starling of the White House secret service detail, who also had communicated with the publisher by telegraph, followed McKenna on the stand.  
Starling testified that his message related to the employment of E. P. Wilkins of Hopkinton, Ky., in the McLean household. Wilkins, Starling said, was his lifelong friend.  
The committee then called E. W. Smithers, chief of communications at the White House, who operated at the Washington end of McLean's private wire to Palm Beach.  
Smithers declared his duties were "purely mechanical," that he paid no attention to the subject matter of the messages handled and that he took the labor only because he needed the extra salary.

**RESIGNS AS CHAIRMAN OF OIL COMMITTEE**

**Would Give Older Policemen Priority Rights as to Beats**

The police commission held a called meeting at the courthouse this morning for the purpose of discussing the merits of a different method of assigning patrolmen to their beats.  
The meeting was executive but one of the commissioners declared later that no decision had been arrived at and that the proposed plan was somewhat too vague in its present shape to warrant action. The plan which the chief of police and the sergeants are said to have approved is to give the oldest men in the force the right to obtain in on the railways which gives men who have been in service the longest certain priority rights. This, it was explained, the older men of the force would be given the opportunity to select their time of service whether by day or by night.  
At the present time this is done by automatic rotation the three police regiments which work eight hours each taking it in turns and all of them performing night service as often as they perform day service. This if adopted would result in a "shake up" of the established regiments. Under the plan the three sergeants took it in turn to direct the different squads. That plan has been done away with and each sergeant has his own group of men the three sergeants changing with his relief every thirty days.  
Another member of the commission who was questioned, said that while proposed change in the assigning of beats was under consideration at the last meeting today's session dealt chiefly with the financial affairs of an officer who recently became involved. The commissioners found negotiating circumstances and after hearing full particulars of the misfortune which have befallen him took action to direct the different squads. That plan has been done away with and each sergeant has his own group of men the three sergeants changing with his relief every thirty days.

**WOUNDED NEGRO IMPROVES**  
John Marshall, who was shot and wounded Sunday, is charged by Thomas Broadnax and who has been in Providence Hospital, in critical condition for several days is slightly improved.

## MURPHY GIVES OUT LIST OF MEN UNDER CONTRACT, START TRAINING MAR. 24

Herby Murphy, owner and manager of the Danville baseball club this morning announced that he would mail out transportation next week to the 24 players he has signed for try-outs this year. Along with the transportation, Manager Murphy sent instructions to the players to report on the following, March 24, at 10 o'clock in the morning that training would begin on the following Monday.  
Manager Murphy also this morning announced the names of players he has signed as try-outs with the club. Three catchers are under contract. They are Earl Harrison of Vandalia, Mo., who is recommended by Manager Witchcraft of the Terre Haute club, with whom he played; Jake G. Roesch, of Brooklyn, N. Y., and Henry C. Laux, of Alma, Ill.  
Seven twisters have affixed their signatures to contracts. Included are Leo "Gadger" Harris, of Mt. Summit, Ind., and Henry L. Gray, Gainesville, Fla., both with the club last year. The new hurlers are Bernard Oldenbrook, a semi-pro, of Woodbridge, Ky.; J. T. Griffin, Harrodsburg, Ky.; Joseph Dwyer, East Rutherford, N. J.; John Arthur—recommended by Catcher Dave Cochran—of Oakville, Pa., and Raymond Hall, Harrisburg, Ind., recommended by Leo Harris. Arthur is the only outsider in the group.  
A new outfield will be in order with the exception of Eddie Rogan, who will be back again from Perth Amboy, N. J. Elliott L. Kerlin, Mohawk, Fla., who has given a try-out last year and made a favorable impression, but who needed a little more seasoning, has been signed. Murphy stated today that he thinks by this year, Kerlin should make the grade with no trouble. The only other outfielder signed so far is H. E. Keath, of Palmer, S. C.

## BEAT MUSGROVE WHO SAYS THAT FRAUD EXISTS

**Loser Refuses to Concede Defeat, Alleging Crookedness — Senator Now Has Privilege of Naming State Delegation to N. Y. Convention.**

(By The Associated Press.)  
BIRMINGHAM, Ala., Mar. 12. —Senator Oscar W. Underwood has the privilege of naming Alabama's delegation to the New York convention on the basis of yesterday's primary in Alabama in which he defeated L. B. Musgrove by a majority estimated at more than 20,000. In complete returns tabulated from 59 out of 67 counties in the state gave Underwood 49,209; Musgrove 27,285, and M. A. Dimsmore 8,201.  
Musgrove refused to concede defeat and declared alleged frauds would be "exposed immediately." He also charged that the vote in the black belt and a few other counties, especially in Mobile, had been "manipulated in the interest of my opponent." Returns, as tabulated, gave Musgrove a majority in five counties of the state. In a formal statement, Musgrove said: "Sufficient information is at hand to show that I have carried the state."  
A number of issues entered into the campaign. William Jennings Bryan made a campaign tour through the state in support of Musgrove. The Ku Klux Klan, the soldier bonus and prohibition were the chief issues. Dimsmore made the race as a backer of William G. McAdoo, but McAdoo announced that he was not competing in Underwood's home state and was not represented by Dimsmore.

**LEAD INCREASES**  
(By The Associated Press.)  
BIRMINGHAM, Ala., Mar. 12. —With approximately three-fourths of the state's polling places heard from, Senator Oscar W. Underwood's lead over his nearest opponent, L. B. Musgrove, is estimated at 25,000 as a result of Tuesday's presidential primary election. Most of the missing votes are from districts where the inclement weather precludes the casting of a normal ballot. "In those sections the vote was extremely light, the heavy rains having made roads almost impassable," he said.  
In the cities and towns, however, sufficient interest was shown in the election to assure an even larger vote than was cast in the 1920 election. In the rural districts, where the heavy rains having made roads almost impassable, the vote was extremely light.  
Jefferson County gave Underwood a clear majority of 15,000 while Mobile county reported 8,100 lead for the Senator over Musgrove. Third contestant, M. A. Dimsmore, third contestant, failed to exceed the 5,000 mark over the state. Missing boxes are not expected to materially change the result of the primary, which is in hand. White counties, which were entered, the outcome became evident when Musgrove charged fraud in Mobile county and declared he had "carried all the White counties." Underwood has not issued a statement.

## Defer Meeting On Ball League

The meeting which was to have been held today for the purpose of determining final questions in connection with the Inter-City Textile Baseball League has been postponed until one day next week. The only remaining questions are the adoption of a schedule and the rules for the league. The present plans call for the beginning of the season early in the coming month. The schedule will provide games on one afternoon of the week only, that is Saturday. Teams which will be entered will be from Schoolfield, Danville (River-side Mills), Spray, Draper, Leaksville, White Oak and Proximity.

## Will Probe Part Played by Smith In Dept. Affairs

(By The Associated Press.)  
WASHINGTON, March 12. —The part played in Department of Justice affairs by Jessie Smith, friend of Attorney General Daugherty, who committed suicide a year ago, in Mr. Daugherty's administration, will be inquired into in detail in the Senate Daugherty investigation.  
Senator Wheeler, Democrat, Montana, preparing the case for the committee, announced that all telegrams sent to and received by Smith at Columbus, Ohio, after the election of President Harding had been subpoenaed.  
The senator said that the reported influence of interests in the Mexican revolution, planned for the inquiry at the opening session, probably would give way to some other undisclosed subject.

**Their Dad's a Senator!**

Senatorial investigations aren't worrying these young folks in the least. Neither do they object posing for the photographer. They are Eleanor (left), and John King, son and daughter of United States Senator William King of Utah. Yes, they're twins.

## COMMUNITY INTEREST IN "CO-OP" BANK GROWING

The marked development of community interest in the proposed establishment of a branch of the Intermediate Credit Corporation in Danville to meet the needs of members of the Tobacco Growers' Co-operative Marketing Association is an outstanding feature in connection with the conference to be held here on Friday. Attention today was called to the discrepancy in the date of the meeting. It was first tentatively called for next Saturday but on Monday the date was changed to next Friday, March 14th. The meeting will be held in the auditorium of the Masonic Temple which has been secured through the offices of the Chamber of Commerce which is fostering actively not only the bank but the friendly relationship between the people of the surrounding agricultural section and this city.  
The attendance at next Friday's meeting promises to be big. It is anticipated that the bank will be organized by the wide response by Danville business men. There is also certain to be a good attendance of grower-members of the organization and there will be the friendly relationship between the banks in the entire bright belt of Virginia in which are established the twenty-three pooling organizations maintained by the "co-op" organization.  
J. R. Haymes, who has shown interest in the bank plan, reported by telephone this morning that he had sent an urgent letter to the cashiers of every bank in the bright belt asking them to be present in person or to have some representative in the present in order that all may fully understand the explanation of the working of the bank which will be given by an agent of the financial corporation who will be here from Baltimore for the purpose of the meeting. Haymes was quite optimistic and declared that Danville is certain to secure the bank which will prove a great boon to the farmers. One of the matters which will be determined will be the amount of stock which is to be subscribed here.  
Businessmen as well as farmers have shown considerable interest in this movement. It has been announced that Oliver J. Sands, executive manager of the Tobacco Growers' Association, will be present at the meeting as well as other officials of the association and an official of the Intermediate Credit Bank.  
The purpose of this organization, is to furnish a means whereby the tobacco farmers of the region can borrow money for the sole purpose of production. The regulations provide that a corporation of this type may borrow through the Intermediate Credit Bank ten times the amount of its capital. It is intended that the farmers who borrow money from this organization using as collateral the "participating certificates" of the Tobacco Association. These certificates are evidence of the equity held by the individual farmer in the tobacco which he has placed in the association.

## Trinkle Agrees to Pay Costs in Hudson's Case

Governor Trinkle this morning agreed to meet the request made by local state authorities that he should incur by North Carolina in extraditing Macon Hudson from Detroit, Michigan, as assumed by the state of Virginia and the final barrier being the bringing of the alleged thief to Danville for trial is believed to have been removed.  
Jesse W. Benton, assistant Commonwealth's attorney this morning at nine o'clock held a telephone conversation with the governor when the facts in the case were set before the executive. At first, Mr. Benton reports, the governor was disinclined to permit the expense falling to the state. The principal question was whether the North Carolina authorities, after affecting Hudson's extradition should be willing to forego his prosecution. Mr. Benton then explained the circumstances to the governor more fully and he finally agreed fully to do what was necessary. The governor however, did not promise to foot the bill in the extradition proceedings as presented by North Carolina. Instead, he will authorize the payment of the amount of money which it would have cost this state if a Virginia officer had gone to Detroit to bring back the alleged thief. Hudson is expected to reach Danville no later than next Tuesday. He is indicted here on seven counts which alleged the theft of automobiles. His trial is due next May. Witnesses in North Carolina have already agreed to appear here for the state.

## Traffic Committee Will Meet Today

The traffic committee of the Chamber of Commerce will hold a meeting at five o'clock this afternoon to discuss a number of important civic matters. The principal question expected to be acted upon will be the advisability of securing for Danville the services of a freight expert to examine into outgoing freight rates for the purpose of seeing if these outgoing rates are properly applied. The incoming freight rates are usually checked up by local concerns but the same solicitude, it is reported, is not shown in outgoing freight. In some quarters the belief is expressed that there is a leakage and that it would be for the best interests of the city to have this stopped without further delay. Another matter likely to be discussed will be the local parking problem.

## SEVERAL DEAD AS GALE HITS NEW ENGLAND

### TOWN TOPICS

The Danville Rotary Club has taken definite steps toward securing the annual conference of the 37th Rotary district to be held in the Spring of 1925. Some fifteen Danville Rotarians will go to Raleigh April 3rd and 4th where this year's conference will be held and will spend a large portion of the time in Danville. The scene of the 1925 conference however, will not be definitely determined until September 27th, district includes Virginia and Eastern Carolina. There are 38 clubs embraced in that territory and the membership is 2,200. The local club voted yesterday enthusiastically to try and secure the conference, which would bring here a large delegation and some eminent speakers.  
Announcement was made this morning that Miss Emily C. Allison has been appointed superintendent of Coast Artillery band which is to direct of the institution on April 1st. Miss Allison, while a native of North Carolina is coming to Danville from Atlanta, Ga., where she has been in charge of a hospital. She comes well recommended and with a good record of service as superintendent of a hospital in Charleston, N. C. She is a graduate from the hospital in Raleigh, N. C. Miss Jean Forest has had active charge of the hospital since Miss Mary Doolin left here for Philadelphia.

**Train and Wire Service Badly Crippled in Middle Atlantic States, Especially in Virginia and North Carolina — Trains Made Over Twelve Hours.**

(By The Associated Press.)  
NEW YORK, Mar. 12. —Unsettled after 24 hours, yesterday's storm blew northeastward today along the coast, blowing in from the Gulf of Mexico and lashing the inland country.  
The gale was abetted by a dense fall of snow and wire communication was badly hampered. Several cities were known to be lost, five in New York City and two in Philadelphia, and many persons were injured.  
Despite the great winds which whistled today, the storm at Atlantic City, ships came into port and left, fighting high tides in the dangerous bay channels.  
Virginia received the heaviest blow yesterday and for hours the state was cut off from the world. Much damage was done in Pennsylvania as in New Jersey and along the Long Island shore.

### VIRGINIA IS HARD HIT BY THE STORM

(By The Associated Press.)  
RICHMOND, Va., Mar. 12. —Bright sunshine and moderate temperatures, which had been the result of the storm that held Virginia and the eastern seaboard in its grip for more than twenty-four hours, and left in its wake a trail of destruction and poles that cut off completely communication for several hours, seriously delayed rail traffic, turned roads and streets into quagmires, and caused vehicular traffic to a minimum, and in some places caused much suffering, and brought to a standstill several lines of business. In the early morning, the storm was still in its full force, and the Southwestern Virginia livestock suffered considerably.  
Probably the greatest loss was suffered by the telephone and telegraph companies, whose lines along road companies and brokerage firms also were seriously affected. Many newspapers were without wire facilities yesterday and today, while others were cutting greatly curtailed news reports. Several brokerage firms were unable to transact any business in the twenty-four hours on account of having no wire connections with New York and other markets. Railroad trains were running far behind schedule today, some of them being held up for hours by the storm, and across the tracks and by dirt slides and washouts. For several hours the trains were operated without orders.  
Gangs of linemen at work since early yesterday, continued today their efforts to restore the communication systems. The Western Union Telegraph Company had twenty-five gangs working in and around Richmond, while large forces were operating out of Washington and other cities. Between Quantico, Va., and Washington, this company lost about eighteen straight miles of poles, and between Gordonsville and Charlottesville, the company lost under the weight of ice and sleet of the wires on succumbed to the heavy wind. Twenty-five poles were down between Staunton and Fredericksburg, and between Washington and Quantico, and Ohio Railway three hundred fell before the storm. Six poles were down near Weldon, N. C. No poles were lost along the Seaboard Air Line Railway, the telegraph and company report, but the wires were seriously affected between Petersburg, Va., and Norfolk, N. C. The company had restored communication with the south yesterday, but service north still was cut off.  
The Postal Telegraph Company also was seriously affected by the snow and wind, losing poles for stretches of five miles between Richmond and Washington, and also between Washington and New York.

(Continued on page three.)

## Louhoff Left His Estate to Son

The will of the late W. C. Louhoff who died at his home at Stokesland, Va., on Monday, was admitted to probate in the Pittsylvania circuit court yesterday. He appointed the First National Bank of Danville as his executor and James Bustard, appraised for the bank and gave bond of \$40,000 required by the court. The value of Mr. Louhoff's estate is about \$36,000. The will was written on July 31, 1922, but a codicil was appended January 20th, 1924 in which he devised the bulk of the property to his son, W. C. Louhoff, Jr., and his daughter-in-law, Mrs. Julia Louhoff, this including the country home.

## MOB'S VISIT TO FRANKLIN MAN STARTS A GUN FIGHT

Lack of telephone facilities today between Danville and Rocky Mount and Martinsville and details of the shooting of William Keys by George Dyer at the latter's home in Franklin county last Sunday. Dyer is in jail at Rocky Mount and Keys is in a Martinsville hospital with the seriousness of his injuries not definitely disclosed at this time.  
Such meager details as are available, however, indicate that last Sunday, Keys accompanied by what has been described as "a mob," went to Dyer's home which is near the Henry county line and attacked him, also Mrs. Dyer when the latter went to the assistance of her husband. Dyer, who is a farmer, was severely injured and he shot Keys. The wounding of the alleged leader of the visitors prevented further hostilities. Keys was taken in charge and hauled to Martinsville for medical treatment in a hospital. Dyer remained at his home until

Sheriff J. P. Hodges and a group of his deputies arrived at the scene and took him in charge. Dyer is reported to have expressed relief at the arrival of the sheriff and to have surrounded himself immediately. He is further said to have given an account of the happening similar to that recorded above. Dyer is further claimed to have stated that the attack on him and his wife after the mob had accused him of reporting Keys to officers for an alleged violation of the State liquor law.  
Sheriff Hodges and his deputies who did not receive word of the shooting until Monday, expressed great difficulty in reaching the scene of the shooting. Their car ran into a blinding snowstorm which was so intense that the national highway became impassable and ten miles from Rocky Mount they were compelled to abandon the car and proceed on foot to Dyer's home.

### Some Side Lights On Psychology

A large number of people heard the large storm last evening to hear the lecture on Practical Psychology, given by Mrs. Tiffany. The topic of the evening, and was handled in a very efficient manner by Mrs. Tiffany. The interest continues to grow, which is evidenced by the ever increasing attendance upon the lectures, and many residents of the city are availing themselves of the opportunity to glean additional information about this new something in the teaching of the minds of some of the brainiest men in the world, today. Both Mrs. Tiffany and Mrs. Strong possess unusually strong personalities and are gifted with a wonderful talent for work on the lecture platform. They are also graduates of the Arcadium School of Practical Psychology and have had a number of years of successful experience as teachers of the subject.

Mrs. Tiffany is a native of Tennessee, and the subject of Psychology was brought to her attention in the city of Jacksonville, Florida, when she attended the last of a series of lectures delivered by Harlow Lullia McCollum. She had been in declining health for a number of years, and her condition had become so serious that it was only a question of time until she would be ready for a permanent home. This ill health had continued through a period of about fifteen years, during which time it took all of her husband's income to pay attending physicians and drugs. Sensing the possibilities of Psychology, she enrolled in the class taught by Harlow Lullia McCollum and her sister, Effie McCollum Jones. The purpose which prompted her to take up the study, was to regain her health, which she succeeded in accomplishing. She then took up the work herself, first working in the capacity of a psychoanalyst, and then going on the lecture platform. Mrs. Tiffany has appeared in a large number of cities in the south and the middle west, covering the states of Texas, Kansas, Arkansas, Ohio, Iowa, Wisconsin, Michigan and Indiana, also the state of Pennsylvania, where she lectured prior to coming to Danville. Mrs. Tiffany related a number of incidents concerning cases in which people had been benefited, and in a large number of instances where they had been able to rearrange their lives and win health and happiness and success through the medium of Practical Psychology. The principles of Psychology are based on the theory that any one can get what they want in the world, provided they know how to go about getting it, also that each and every one are masters of their own destinies, and they cannot utilize some one else and use them for a prop. According to the ideas of some of the world's greatest men and women, we are today living upon a new period of history in which the development of the physical and mental capacities of the coming generations will be improved and perfected. Psychology with the aid of this program, in that it will help people to discover themselves and be converted from drift-wood into go-getters.

### DR. SAGER'S CAR INJURED ON ICE SKIDDY STREET

Dr. W. B. Sager was another of those who experienced mishap yesterday when his four-passenger coupe skidded on the icy street at Virginia avenue and West Main in making a turn and jammed one of the front tires against the curb inclosing the central grass plot on the avenue with sufficient momentum to smash the wheel. While waiting for another wheel he availed himself of another car and devoted himself to his far flung battle line against disease with little delay.

### SECOND BAPTIST ACTIVITIES

The Second Baptist W. M. U. has just closed a successful week of prayer for home missions. The pastor, Mr. Carter, also stressed making America Christian. The societies also prepared a box of linens for a hospital in Africa. The prayer services on Wednesday night are a feature of each week. The week of Matthew is being taught. There were 140 present at the last meeting.

### TRULY OLD FASHIONED

LONDON, Mar. 12.—Compelled to disrobe in Dorking casual ward, a woman was found to be wearing seven skirts, six coats (including a soldier's tunic), nine stockings, a one leg, eight on the other, and a proportionate supply of underclothing.

### TABULATED REPORT OF THE CITY SCHOOLS

Following is a tabulation by grades of the reports sent to Superintendent of Schools W. C. Grier by the principals of the white elementary schools at the close of the first term:

Gr.	Reg.	Pro.	Con.	Fld.	Whdn.
1.	492	254	89	83	76
2.	396	238	43	26	39
3.	417	331	25	24	37
4.	429	315	51	12	21
5.	290	173	54	35	28
6.	230	163	43	43	35
7.	270	174	26	48	22
	2584	1704	331	291	253

66 per cent. promoted; 13 per cent. conditioned; 11 per cent. failed; 10 per cent. withdrawn.

The first column is the grade; the second column is the number registered in that grade; the third is the number promoted; the fourth is the number conditioned; the fifth is the number of failures, and the sixth is the number who quit before the term closed. Some of them may have entered another school, but most of them quit school.

The disparity between the membership of the grades 1-4 inclusive and the subsequent grades is a condition that should claim our attention. In short it is this:

Pupils in the lower grades who repeat the grades, it is reported, lose interest by the time the fifth grade is reached and employ an excuse to leave school.

### RICHMOND IS AFTER GENERAL CONFERENCE

A resolution inviting the general conference of the Methodist church, South, to hold its 1926 meeting in Richmond, was adopted unanimously at the monthly meeting of the Methodist Society of Richmond Monday afternoon in Broad Street Methodist church. It was announced today.

This conference is composed of about 500 ministers and laymen, and will take place in May, 1926. An important question expected to come before this gathering will be the union between the Methodist church and the Methodist church, South, and the meeting is therefore expected to prove a most important one.

A committee of five representatives was named yesterday to seek to acquire the conference for Richmond, and is composed of J. H. Montgomery, chairman; J. P. Jones, L. W. Hoffman, N. C. Scott and Rev. L. S. Flournoy. The sessions of the general conference usually last for about three weeks, and representatives from every conference in the Southern Methodist church are in attendance. The 1922 meeting took place at Hot Springs, Arkansas. It has not met in Richmond since 1888.

### GRACE GUYER SOCIETY MEETS

The Grace Lelgh Guyer Missionary Society of Cabell Street Methodist church held a meeting Sunday afternoon at 3 o'clock at the church with the following program:

Song—Brightly Gleams Our Banner.

Bible lesson, Isaiah 41:1-4, by Cordie Tucker.

Prayer, Mrs. Hall.

Minutes of last meeting.

Roll call.

Reading—"The Curiosity of St. Candy Box," by Ruth Harvey.

Reading—"King Mill Sets Up His Feet," by Evelyn Wherry, Jessie Wade, Nellie Ison.

Reading—"What Special Training Means to a Volunteer," Berntha Hand.

Story—"Elsie's Chance," by Mrs. Hall.

Song—"A Child's Prayer for Hands That Toil."

Prayer, Virginia Yeatts.

### REPORT UNDERWOOD

WILL CARRY ALA.

(By The Associated Press.)

BIRMINGHAM, Ala., March 11.—The Birmingham News at 7 o'clock tonight said that Senator Oscar W. Underwood would carry the state by a majority in excess of 25,000. Jefferson County which gave Mr. Musgrove a plurality of 101 votes over Mr. Underwood in the senatorial primary 1920, went for Underwood today by 1,200 majority, according to the News.

Thirty-five out of a total of 37 counties in the state gave Underwood 22,265; Musgrove 13,953; and Dinsmore 1,068.

Even in the old days whiskey "never did anybody any good"—and today's brands are more so.

### Masonic Officers at Country Club

A company of gentlemen numbering twenty-three all members of Roman Eagle lodge No. 122, A. F. & A. M., were guests at a dinner at the Country Club last night tendered by the station officers of the lodge and participated in an interesting symposium of views designed to promote plans for the welfare of the local Masonic order in general and particularly that of this lodge, which now has a membership of 435—the largest in its history.

S. C. Cunningham, master of the lodge, who presided; Senior Warden E. H. Marshall and Junior Warden Fred W. Townes (who was unable to be present on account of having to undergo a minor surgical operation), were the hosts of the dinner, while Senior Deacon W. E. Rice, Junior Deacon Richard P. Moss, Secretary D. H. Penn, Treasurer H. W. Smith and Tiler S. J. Davis were other officers of the lodge present, while such veterans as P. H. Boisseau, Colonel J. W. Dudley, Past Cleveland Hall, D. D. Deputy Grand Master E. W. Beach, Past Grand Master E. O. Kerns, W. B. Smith, H. L. Boatwright, Eugene Withers, John W. Nunn, Herbert J. Martin, J. P. Baker and a number of other past masters made up the list of diners.

The purposes of the meeting were to promote a revival of Freemasonry in this lodge and in the city and a discussion of best means of enlisting the active interest and more regular attendance of the younger members of the order and to stress the fundamental tenets of the ancient order. Several very impressive talks were made, all of these being informal and to the point sought by the proponents of the gathering. As a result of the views elicited it was the consensus of opinion that a larger grasp of the fundamentals of the craft would be possible for the younger members of the fraternity.

The menu served was an excellent one, well prepared and enjoyed by the group, and both Masonically and as a social and convivial gathering of men actuated by the same aims and interests the occasion was noteworthy.

### TOILERS NUMEROUS AMONG MEN TODAY DIRECTING ENGLAND

LONDON, March 11.—It has never been the custom of English uncles to tell their little nephews that they might grow up one day to be prime minister, as American boys are informed of their universal birth-right opportunity to become president. But such may become the custom in England, now that the old-fashioned system has been brought into the open and scattered by the advent of the Labor party.

Under the old system those who occupied mighty political seats had mostly been trained for public life from boyhood. Prime ministers were personages with luxurious family trees, "public school boys" whose fatherly counsel had been followed in the aged cloisters of Oxford or Cambridge. If the prime minister wasn't all of that as, for example, the self-made Lloyd George, well, most of those who helped him run the Empire were. Ex-miners and ex-office boys and ex-loomers and cleaners and ex-mill workers didn't sit at the cabinet table in No. 10 Downing Street, as they are doing now. The old-type minister was Lord This or Lord That or Sir Something else or, if he clung to a plan "Mr." if he wasn't a baronet, he couldn't have a title if he wanted one.

But in the new cabinet headed by Mr. MacDonald, nine of the 20 members were white collars only on Sundays in their first struggles for existence. And some of the others were clerks.

MacDonald, a boy reared by a grandmother in a little fishing village in the north, felt the metropolitan urge at the age of 19 and came to London. But all London had to offer him was a job addressing envelopes and licking stamps. He got the equivalent of \$2.50 a week for it. The new lord privy seal and leader of the House of Commons, J. R. Clynes, began work at the age of ten as a pleger in a mill. Arthur Henderson, the home secretary, served his apprenticeship in a Newcastle iron foundry. F. W. Jowett, the first commissioner of works, started work as a half-time before his ninth birthday. J. H. Thomas, the colonial secretary, was an errand boy at first and then, when he put on long breeches he started cleaning engines. He soon became a fireman and then a driver of locomotives on the Great Western Railway. The minister of labour, Tom Shaw, started work in the cotton mills at the age of ten. Several of the new cabinet officials were miners. Stephen Walsh, the secretary of war, went into the pits at 14. Vernon Harcourt, the postmaster general has been in the mining industry all his life. John Wheatley, the minister of health, though now a publisher, worked underground from the age of 12 until he was 22. William Adamson, secretary of the land, toiled in the pits for 27 years. With very few exceptions, every big official in the new British government has had to work for a living during most of his life.

### ROYAL RESTAURANT

Lily Leonhart (above in two poses), English vaudeville artist now in this country, claims her legs were much more beautiful than the million-dollar pair of Mlle. Mistinguett and that her back is prettier than Eva Tanguay's. That's what she says, so what's the use of mindcng words?

### S. L. HUNDLEY'S FORD CAR REPORTED STOLEN

Another Ford car was stolen last night. The thieves seem to have a decided penchant for this type of gas buggy, most of those reported stolen recently being Henry's. Last night about 10:30 o'clock, the Ford roadster belonging to S. L. Hundley was left parked on Pine street for a short time, and when the owner returned to re-enter it, he found the roadster missing. The theft was reported to the police department promptly and the successful tracers of stolen cars were set at work on the trail.

The car bears state license tag No. 48,440 and city tag number 912, motor number 7,484,283. Mr. Hundley rooms at the Y. M. C. A.

Police are now inclined to believe that a gang of car thieves is operating from the north, and that its agents are growing active in this vicinity. Despite the conviction of several and the recent apprehension of others, the daring thieves continue their activities.

### N. & W. BLOCKED

(By The Associated Press.)

ROANOKE, Va., March 11.—Norfolk and Western through trains from the north due here at an early hour this morning has not reached Roanoke tonight on account of dirt slides and fallen poles between Lynchburg and Washington. The Memphis Special and train No. 41 are stranded between Charlottesville and Monroe loaded with passengers.

### KANSAS G. O. P. SUPPORT COOLIDGE

TOPEKA, Kans., March 11.—A resolution instructing the Kansas delegates to the Republican national convention to support President Coolidge was passed unanimously today by the Republican state convention.

### Corns

Lift Off—No Pain!

Doesn't hurt one bit! Drop a little "Freezone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers.

Your druggist sells a tiny bottle of "Freezone" for a few cents sufficient to remove every hard corn, soft corn, or corn between the toes, and the foot calluses, without soreness or irritation.—adv.

### PLAYER-WRITER RULE HANDICAPS AMERICA'S TENNIS

(By The Associated Press.)

NEW YORK, March 11.—The United States will be without the service of its two tennis "aces" in the 1924 Olympic competition as a result of William T. Tilden's withdrawal because of a ruling that American Olympic competitors cannot write newspapers and syndicates while abroad.

William M. Johnston, former champion, who ranks next to Tilden in the national list previously had decided he would be unable to accept an invitation to join the Olympic team which the United States Lawn Tennis Association plans to send to France.

The anti-writing regulation may further hit the ranks of tennis candidates. It was pointed out, because Vinches Richards, Davis Cup player and fourth national ranking star, also is said to have a 1924 contract for newspaper work. Richards is now in Florida.

It was understood to be chiefly because of contracts such as Tilden and Richards have that the U. S. L. T. A. in ruling against player-writers at its annual meeting in February, decided not to enforce the rule until January 1, 1925.

### GAS LAMPS GOING

SAN FRANCISCO, Mar. 12.—The old lamphouses soon will be another memory of the past in San Francisco. City officials are yielding to the importunities of the ultra-modernists and gas lamps are being removed to make way for electricity.

### NEPHEW GEN. LEE DIED YESTERDAY

(By The Associated Press.)

FREDERICKSBURG, Va., March 11.—Major General John Mazon Lee, nephew of General Robert E. Lee, and son of Commodore Sidney Smith Lee, of the Confederate Navy, died today at his home, "Westwood," in Stafford County, near here. He was 55 years of age. The funeral will be held tomorrow afternoon at 2 o'clock in Aquia Church.

Major Lee is survived by three daughters and one son, namely: Mrs. C. P. Cardwell, Hanover County; Mrs. Antrim, Richmond; Miss Nannie Mason Lee, and W. Bankhead Lee, both of Stafford County.

The solar or planetary system consists of the sun, with eight major planets, and a thousand minor planets.

### YOUR GARDEN

### MORE FLOWER FACTS

Many flowers, grown as annuals, can, with proper protection, be turned into semi-perennials by carrying them over the winter in a coldframe. Pansies, dianthus, and chrysanthemums are numbered among the plants adapted to this sort of treatment, which, of necessity, is restricted to the hardiest varieties.

Half-hard plants may be placed in the open air a week or two before the coming of the last frost.

Seeds of such plants must be started under glass in order to have a sufficiently long season to develop. They should not be taken from coldframes or hotbeds until danger from all frost is past.

This time is usually when white-oak leaves are about the size of children's ears.

When growing annuals in masses, be careful to avoid bad color combinations.

Different colors, however, in the different varieties of a single species usually do not clash.

The gladiolus should be given a prominent place in your garden where an elaborate assortment of flowers is sought.

Gladioli seem to thrive in most any soil, but earth containing some sand seems best. Spade the ground to the depth of about a foot. Where bulbs are used do not use fresh manure.

When sowing seeds in the open it is the general practice to cover them to a depth equal to about five times their diameter.

When covering them indoors in seed boxes, hotbeds, or coldframes, they should be planted to the depth of their greater diameter.

Seeds about the size of a grain of wheat should generally be planted 1 inch deep. Those the size of peas about 1 1/2 inches deep.

Small seeds are generally sown in rows and compacted into the soil by passing a board over the rows and walking on it from end to end.

Success in raising annuals is almost in direct proportion to the destruction of the crowding plants as they grow.

Give each separate plant as much room as possible and it will return large flowers and better ones, than if forced to share its space with half a dozen other puny plants, all trying to grow in the small space where only one plant should be.

The gardener should remember to clean and when put to rest will reward the flower fancier a hundred-fold.

Sweet peas and scores of other annuals will be kept in bloom for many weeks if you pick the flowers as soon as they open. Especially is this true of pansies.

It should be strictly remembered that the moment an annual begins to produce seed it runs to seed.

**TOMORROW: garden culture.**

## THIRTY HURT, 2 BUILDINGS ARE WRECKED BY EXPLOSION

(By The Associated Press.)  
DETROIT, March 12.—Thirty persons were injured, two buildings wrecked, and windows for blocks broken, when a dynamite bomb exploded at the entrance to a downtown Greek coffee house early this morning. The injured, mostly cut by flying glass, were taken to the receiving hospital, where it was said none was seriously hurt. The cause of the bombing is not known.

## Several Dead As Storm Hits New England

(Continued from Page One)  
crippled to the south. This company's linemen were reporting direct to headquarters at Atlanta and the extent of its damage was not known here.

The Chesapeake and Ohio Telephone Company lost two hundred poles between Richmond and Amelia, and fifty poles in the immediate vicinity of its city. Its most serious trouble was north of Fredericksburg. Linemen from Washington were at work in that territory and the extent of the damage was being reported to headquarters there. Fifteen hundred telephones in Richmond were damaged by the storm.

So seriously were the roads and streets of Virginia damaged by the wet snow that fell continuously from dawn Monday to late yesterday afternoon and then turned into a rain that continued until after midnight, that the State Highway Commission issued a warning to automobilists to use the most caution. It was pointed out that not only was there danger from falling poles and wires, as well as trees, but washouts were not improbable.

The biggest fire reported during the storm was at Harrisburg, Pa., where a department store was destroyed by a blaze of unknown origin with a loss estimated at \$100,000. Several adjoining structures were threatened by the blaze but were saved after being only slightly damaged.

## RUSH CREWS TO VIRGINIA FROM ATLANTA DISTRICT

(By The Associated Press.)  
ATLANTA, Mar. 12.—Crews are being rushed to the storm area in Virginia and Pennsylvania and 200 men will be at work before night to repair damage to the main lines of the company, according to C. W. Ribble, general superintendent of the Southern division of the Postal Telegraph Company.

"One of the worst storms in many years in the amount of damage it caused to our lines," was the way Mr. Ribble described the snow and wind storm which struck the Virginia section yesterday. No reports have yet been received from the parts of the line, but he said the damage was chiefly in breakage of wires laden with wet snow and broken by the gale. Comparatively few poles are down, Mr. Ribble said, and service is expected to be restored to normal in two or three days.

The area of greatest damage extends from Harrisburg, Pa., centering around Washington and extending south to Danville and Emporia, Va. east of Petersburg, Va. Mr. Ribble said there was apparently little damage.

## NO ILL EFFECTS.

(By The Associated Press.)  
ROANOKE, Va., March 12.—Roanoke suffered no ill effects from the storm which swept over the State Monday night, resulting in the interruption of the main lines of the Postal Telegraph Company. The snow melted as fast as it fell here and this morning practically no traces of it remain except on the surrounding mountains which are glistening in something approaching a spring sunshine.

## WIRES IN BAD SHAPE.

(By The Associated Press.)  
LYNCHBURG, Va., March 12.—Railroad men at Monroe, the Southern division terminal, eight miles north of here, estimated that from three days to a week, will be necessary to repair the wire trouble prevailing, along that line between Monroe and Washington, but all trains were running this morning. Only one telephone wire was open this morning from Monroe to Shipman, leaving the Monroe office out of touch with more than a hundred miles of the Washington division.

The signal wire systems, were reported to be working as far north as Orange. This means that after trains reaching Orange from Washington will be able to maintain schedules. At 10:15 o'clock it was reported that all night trains had passed Monroe from the South. The trains during the night, which were due here late Monday night, were operated south from 11 to 20 hours late. As far as can be learned no personal injuries have been sustained, along the Southern road as a result of the storm.

The local commercial telegraph of-

town Greek coffee house early this morning. The injured, mostly cut by flying glass, were taken to the receiving hospital, where it was said none was seriously hurt. The cause of the bombing is not known.

## MILDER WEATHER FORECAST

(By The Associated Press.)  
ATLANTA, Ga., Mar. 12.—Generally fair weather in most Southern States today forecast the end of the cold weather, which has prevailed in the South for the past three days. While Virginia, with cloudy weather and no change in temperature predicted for today, apparently was due for a continuance of winter weather, the Carolinas, Georgia, Florida, Alabama and Mississippi saw rising temperatures in clearing skies.

In other sections of the South cloudy weather with rain forecast promised some relief from low temperatures. The sudden snap of cold weather, accompanied by high winds from the Northwest, caused serious breakage of wire communication in some sections particularly in Virginia and North Carolina. Trains were delayed considerably and wire communication today was slowly being re-established in places where snow and sleet and high winds brought down telegraph poles and wires.

A blanket of snow from one to three inches deep, was reported in North Carolina and a light snow fall in South Carolina. Lynchburg, Va., reported a snowfall of 7.5 inches. The Atlanta weather bureau forecast a temperature of 24 degrees for this morning, the same temperature recorded 24 hours previously, but sunshine was expected to bring relief later in the day. Yesterday's highest temperature in Atlanta was 32 degrees.

The freezing temperatures, according to the weather bureau, are now plants and shrubs beginning to show a little green, but it was believed that the Georgia peach crop was not damaged.

Favorable weather had been forecast for Florida last night, with a minimum of 28 at Jacksonville.

## SUN IS SHINING

(By The Associated Press.)  
CHARLOTTE, N. C., Mar. 12.—Bright sunny weather throughout most of North Carolina today was driving before it the frigid temperatures which yesterday gripped this section. Snow that yesterday covered virtually all of the state was melting in many sections.

Asheville was the only point reported to have received a third day of sunshine in which there has been snow at that point.

## MAN IS KILLED

(By The Associated Press.)  
WASHINGTON, Mar. 12.—Falling temperatures in the South Atlantic States today added to the difficulty of restoring wire communications and a snow storm in the wake of the blizzard which wrought considerable damage in that region during its northeastward sweep.

Joseph O'Brien, of East Riverdale, Md., is reported killed by a fall thru the snow-laden roof of a chicken house. Trains arriving here from the South continued two to three hours late and no direct telephone or telegraph wires to the South were in operation this morning. Many lines to the East and West also remained down.

## TRAINS DAY LATE

(By The Associated Press.)  
CHARLOTTE, N. C., Mar. 12.—Southern Railway passenger train No. 37 fast New York-New Orleans Express, which was due in Charlotte at 10:30 o'clock yesterday morning, passed through here at 6 o'clock this morning. The train was marooned in Virginia for several hours yesterday as a result of telegraph poles, broken by the storm, falling on the tracks.

Train No. 33, another fast through passenger train, due in Charlotte at 9:05 a. m. yesterday morning, passed through Charlotte at 1:30 o'clock this morning.

Southern Railway officials here said today that their tracks had been cleared of the more than 1,400 poles broken by the storm in Virginia and wires strung ending the moving of traffic virtually on schedule today.

Signal systems deranged by the storm also have been put in shape. Passengers on the two fast trains yesterday were fed by the railway company, those on No. 33 being given meals at Brandy and Charlottesville, Va., and those on No. 37, being fed by a dining car that was sent from Charlottesville to Culpepper after considerable difficulty.

New coins to be put in circulation in Austria are to be called the "billion," "double-schilling" and "trillion," out of compliment to Great Britain.

## LENT IN THE HOLY LAND

North Wall of Jerusalem and the road some archaeologists declare Jesus traversed on his way to crucifixion. The little hill to the right is said by these historians to be the actual scene of Christ's death, as they point out that it was here that public executions were held in the days of Pilate.

## Is Questioned About Wire He Sent to McLean

(Continued from Page One)

the efforts of his employees and friends here in January were directed toward an arrangement whereby his deposition would be taken in Florida and he would be relieved of the necessity of making a trip to Washington at a time when he was ill and while his wife and son were recuperating from operations. Major conceded the statements about the \$100,000 transaction might have been embarrassing to the publisher but insisted they were not the reason for the efforts of his agents to prevent the committee from compelling him to appear.

## McLEAN READS LONG PREPARED STATEMENT

(By The Associated Press.)  
WASHINGTON, Mar. 12.—Edward B. McLean, publisher of the Washington Post, invaded the hearing room today before the Oil Committee today that he had told the truth when he testified at Palm Beach that he loaned A. B. Fall \$100,000 in 1921 in checks which "afterward were returned uncashed."

Although his bank balance did not show that amount on deposit, he said his "credit was good" and that Fall had agreed to notify him before attempting to cash the checks. He said, "I was not unusual and had nothing to do with the oil-leasing program."

When he first erroneously informed the committee that the loan had been made in cash, he said he did so because Fall requested it at a conference they had in Atlantic City last December.

In a prepared statement read to the committee, the publisher said that he had been under considerable pressure to testify regarding the loan and when his attention was directed to that subject he said he had no further statement to make.

He said under questioning that he had searched every place for the stubs of the checks he testified he had given Fall, but had been unable to find them.

"There aren't any and never were," were the answers of Senator Walsh, Democrat, Montana.

"Why yes, there were, Senator, to the best of my recollection as I told you," the witness replied.

McLean then said that at a conference he had with Fall at Atlantic City last fall Fall asked him if he would say that he loaned him the \$100,000 in cash instead of checks.

"Fall assured me," he said, "that the loan had nothing to do with Sinclair oil in any way, but that it was a loan for the purpose of the oil lease."

Mr. McLean insisted that his credit was good at the time he gave Fall the checks and that he could have "raised \$200,000 if necessary."

He said Fall agreed to advise him before underwriting cash the checks. At the outset McLean read to the committee this prepared statement:

"Having in mind the subject of this investigation and having also in mind the widespread use of public press of my name as one who might have had some connection with the naval oil leases, or with the companies, individuals, government departments or public officers who did have connection with the leases of the naval oil reserves, I want to make now the following detailed and emphatic statement of facts:

"I have absolutely no knowledge, regretted or unregretted, of any oil reserves made at any time to any person or any company except such knowledge as I, in common with all the rest of the American public, have received from newspaper reports."

As to the so-called Sinclair leases and companies:

"I have never known anything about any lease of any oil land to the Sinclair Company and know nothing today about this except what I have read in the newspapers. I do not know Mr. Harry F. Sinclair and have no recollection of ever having met him even in a casual way. I have never had any interest in any kind, directly or indirectly, for my self or any other person, in any of the so-called companies."

"I did not even know that there was such a thing as the Mammoth Oil Company until I saw it mentioned in the press reports in connection with this investigation. I did know as anyone who reads the newspapers would have known that there was a company known as the Sinclair Consolidated Oil Company, but I have never had any connection with it or any interest in it and have never owned or had any interest in a single share of the stock of that company or any company in any way connected with it."

"In a word, I had no knowledge of or connection with Mr. Sinclair's oil leases or his companies or his business or his transactions."

"I do not know Mr. Edward L. Doheny and so far as I am aware, I

## TRIO BRUTALLY SLAIN; TROOPS ON WAY IN EVENT OF ARREST

(By The Associated Press.)  
LONDON, N. Y., Mar. 12.—The brutal slaying last night of Mr. and Mrs. Thomas Whalley and Mrs. George Morse, apparently by a maniac, resulted in state troopers being sent here today to maintain order in the event of the capture of a suspect. The murders were discovered by a grocery clerk. Neighbors put Mrs. Morse was beaten to death with the handle of an axe in the Whalley home. Rugs were thrown over the bodies, sprinkled with oil and set on fire.

Mrs. Morse, the wife of a village grocer, went to the house to get milk which Whalley, a railroad section foreman, who kept cows, supplied the milk. The murders were discovered by a grocery clerk. Neighbors put Mrs. Morse was beaten to death with the handle of an axe in the Whalley home. Rugs were thrown over the bodies, sprinkled with oil and set on fire.

"I do not know the names of Mr. Doheny's companies but I am informed that he is president of the Mexican Petroleum Company and of the Pan-American Petroleum Company and that those companies like most large oil companies, have branches."

"I have never owned, direct or indirect, for myself or in connection with any other person whatever, a single share of stock in the Mexican Petroleum Company, the Pan-American Petroleum Company or any of their dependent companies, or so far as I know any company that Mr. Doheny had any interest in or connection with."

"I know nothing about the contract or leases between the government and the Doheny companies and have never been in touch with them in connection with Mr. Edward L. Doheny or any company or business of his at any time in my life."

"Again in brief, I have had no connection with interest in, or transactions with Mr. Edward L. Doheny or any company or business of his at any time in my life."

Albert B. Fall has for several years been a personal friend of mine. My relations with him have, however, been personal and never official. I have never at any time had any official transactions with the Interior department of the United States government.

"Regarding the Navy Department and Secretary Denby, I can say the same as I have already said about the Interior department. My personal acquaintance with Secretary Denby has been a very slight one. I have had no business relations whatever with the Navy department and have never been interested in or connected with any contracts of any kind made by, or with that department."

"The newspapers with which I am connected may have carried some government advertising but of course it will be recognized that this is a matter not handled by me personally."

"Because there have been published indefinite and unfounded rumors in November, 1922, I bought two thousand shares of Pure Oil stock through Hibbs and Company, Palm Beach, Fla., at a profit of about \$5,500. This profit was entirely mine. My understanding that the Pure Oil Company is a company that has never had any connection with any government lease, and is now concerned in this investigation."

Only twice in my life have I bought New York stock exchange stocks and here are the facts about those two transactions:

In November, 1922, I bought two thousand shares of Pure Oil stock through Hibbs and Company, Palm Beach, Fla., at a profit of about \$5,500. This profit was entirely mine. My understanding that the Pure Oil Company is a company that has never had any connection with any government lease, and is now concerned in this investigation."

## Approve Present Strength of Army For Another Year

(By The Associated Press.)  
WASHINGTON, Mar. 12.—Maintenance for another year of the regular army at the present strength of 12,000 commissioned officers and 125,000 enlisted men is recommended in the army appropriation bill.

As reported today to the House the measure carries \$326,324,993 or \$16,224,988 less than last year's appropriation and \$3,362,778 less than the budget estimate.

The House bill would mean a loss in revenue of about \$450,000,000. Mr. Mellon said, against an estimated surplus of 395,000,000 for the fiscal year 1925, under existing law.

## Kenyon Is Now Considering Post As Navy Secretary

(By The Associated Press.)  
WASHINGTON, Mar. 12.—Former Senator W. S. Kenyon, of Iowa, now judge of the eighth federal circuit court is understood to be under consideration for appointment as secretary of the navy to succeed Secretary Denby.

Judge Kenyon arrived here last night and shortly afterward went to the White House where he conferred with President Coolidge. His friends said today that he had not reached a decision but had an appointment with President Coolidge tomorrow morning.

## Revision of Tax Bill Necessary to Prevent Deficit

(By The Associated Press.)  
WASHINGTON, March 12.—Revision of the revenue bill passed by the House must be made to prevent a treasury deficit, Secretary Mellon today told the Senate Finance Committee.

The House bill would mean a loss in revenue of about \$450,000,000. Mr. Mellon said, against an estimated surplus of 395,000,000 for the fiscal year 1925, under existing law.

## WATER HAMPER WORK IN REMOVING BODIES

(By The Associated Press.)  
CASTLE GATE, Utah, Mar. 12.—Forty-six bodies still remaining in mine No. 2 of the Utah Fuel Company today are the objective of rescue crews in the mine. The mine is a total of 127 bodies of the 173 known to have been entombed by three explosions last Saturday have been removed to the morgue.

Work was greatly hampered during the night by unexpected obstructions and by water in the mine workings, due to failure of the pumps since Saturday. Workers reported shortly before 1 o'clock this morning that 14 additional bodies had been located in one room of the mine, but that they would not be removed until after daybreak.

## Study Details of Insurance Clause In Bonus Measure

(By The Associated Press.)  
WASHINGTON, March 12.—Details of the new soldier bonus bill—were studied again today by the subcommittee of the House Ways and Means Committee in an effort to complete the draft of the bill so that the measure may be reported to the House this week.

Insurance actuaries presented estimates as to the cost of the paid-up life insurance policy to veterans. The cost estimates hinged on the basis to be adopted for figuring the values of the policies, with opinion of committee members divided between valuing the policies on the number of days' service of veterans and the plan to set the value on a scale of \$400 for each six months of service with \$1,600 as the maximum.

It was decided yesterday to place administration of the bill in the hands of the veterans bureau.

## Charge Baroness Faked Interviews

(By The Associated Press.)  
NEW YORK, March 12.—Charges that the "faked interviews with the former German Kaiser and his wife, Queen Wilhelmina, of Holland, Field Marshal Von Hindenburg and others, are contained in an answer filed in Supreme court in answer to an accounting suit begun by the Baroness Luise de Tornow against Mrs. May Wilkinson Mount, who conducts a newspaper syndicate.

The Baroness, who is the wife of William P. Peters, taxidermist, at the American Museum of Natural History, charged that Mrs. Mount had not made a proper accounting of money received in receipt for the interviews obtained by her and syndicated by Mrs. Mount. In reply Mrs. Wilkinson Mount said she had never had possession in which the persons the Baroness claims to have interviewed repudiate the assertions of the Baroness.

## SOCIAL ACTIVITIES

The marriage of Miss Rose Lucille Herman, daughter of Mr. and Mrs. Louis Herman, of this city, and Harry Wallerstein, son of Mr. and Mrs. David Wallerstein, of Richmond, Va., will take place this evening at 8 o'clock, in Beth Sholem synagogue, has been preceded by many attractive social functions given in honor of the bride-elect, who is one of the most popular and beloved members of Danville's young women.

The marriage will be attended by many relatives and friends of the bride and groom, from Richmond, New York and other points. Dr. Edward N. Calisch will be celebrant.

The bride's only attendants will be her sisters, Mrs. Harry Calisch, of Richmond, and Mrs. Allen Herman, who will be damess of honor. Lester Wallerstein, of Richmond, brother of the groom, will act as best man. Following the ceremony a brilliant reception will be given by Mr. and Mrs. Louis Herman, sister of the bride-elect, was hostess yesterday at a beautifully appointed luncheon given at her home in Stonevale apartments, in honor of Miss Herman. A color scheme of pink and white was charmingly carried out with spring flowers and also in tally cards and favors. The guests were Miss Lucille Herman and her sister, Mrs. Harry Calisch, of Richmond; Mesdames L. O. Crumpler, Lucy Lee Goughgan, Jr.; C. Jones, George Goughgan, Jr.; Misses Ada Leob, of New York; Kate Traubman, of Richmond; Eleanor Guerrant, Katie Green Guerrant; Mrs. L. L. Kaufman and Mrs. Herbert Hoffman. Miss Eleanor Guerrant wore a top score prize, a pair of silk hose, and the guest of honor was presented a handsome Madeira pillow case.

Following the rehearsal last night, the bridal party and out-of-town guests were entertained by the family of the bride.

Rev. Edward N. Calisch, of Richmond, who will be celebrant at the wedding, arrived last night and is the guest of Mr. and Mrs. Louis Herman. Other out-of-town guests include: at their home on West Main street, other out-of-town guests include: Mr. Miss Ada Leob, of New York; Mrs. Morton Thalheimer, Miss Pauline Thalheimer, Miss VerVeer, Mr. and Mrs. Woolner Calisch, of Richmond; Mr. and Mrs. Wallich, of Plains, N. Y.; William Eisenbaum, of Richmond; Mr. and Mrs. David Wallerstein, Mr. and Mrs. Loen Wallerstein; Robert Wallerstein; Benjamin Wallerstein, of Richmond; Mrs. B. H. Herman, of Indianapolis; Mrs. A. W. Calisch, of New York; Mr. and Mrs. David Mayer, Alexander, of Richmond; Mrs. Josephine Herman, of New York.

**Piano Recital at Avertett.**  
The piano recital given by the pupils of Miss Elizabeth Bortz at Avertett College Monday evening was given before an audience of sincere friends and admirers of Miss Bortz and her pupils who braved weather conditions in order to be present.

Miss Bortz, Ruth Burton, of the Expression Department, and pupil of Miss Flossie Adams, who made a distinct contribution of literary interpretations, in addition to the two groups of music, rendered by the two groups of Miss Bortz's piano pupils. In the first group were the younger pupils, Misses Josephine Barr and Lisa Poole, Josephine Reynolds and Elizabeth Perkins, Mary Evans, Eloise Conway and Louise Rippe, Doris McGuire, Vivian Conway, Catherine Reynolds. Of this group Miss Josephine Barr played "Euterpe" by Lavalite. The second part of the program, in which the more advanced pupils took part, was charmingly arranged. Scherzo-Wolfehaupt, played by Miss Rachel Perkins with Miss Bortz at the second piano, attested the skill of the performers and gave great pleasure to the audience. Miss Geneva Conway and Miss Evelyn Gravett also received especial praise and applause.

Others taking part on the program were Misses Louise Glass, Elizabeth Porter, Catherine Reynolds, Mabel Rogers, Verna Barker, and Doris Lumpkin. Those assisting as ushers for the evening were Misses Elizabeth Tate, Myrtle English, Betty Cummins, Juanita Montroy, Lillian Nevitt.

**Nurses Association Meets.**  
Miss Louise Burlingame, of Richmond, who has written the program, which

### Woman Mails Introduction

A woman having a letter of introduction to another woman, mails her letter and waits for a reply. It is practically obligatory on the part of the recipient to invite the woman introduced to a personal meeting.

### WOMAN'S SECRET CHARM

It perfect health lies the secret of woman's charm which makes her radiate cheer and happiness wherever she goes. No one enjoys listening to the aches, pains and woes of an ill, nervous, irritable woman, and her condition is plainly stamped upon every feature. The most effective remedy for woman's ailments ever discovered has proved to be Lydia E. Pinkham's Vegetable Compound. Women are advised to health by using and acquire the charm that health alone can give—adv.

is to be presented in ten towns of Virginia, May 12, for the purpose of commemorating the birth of Florence Nightingale, and also to commemorate the life and work of Virginia's pioneer trained nurse, Miss Sadie Heath Cabness, of Petersburg, was present last night at a meeting of the Danville Graduate Nurses' Association which was held at Edmunds hospital. Miss Kate Hale, president of the club, presided.

Miss Burlingame read a synopsis of the program. Parts have not yet been assigned, although those who are to take speaking parts will be chosen within a few days.

Twenty organizations in the city have been asked to provide a scene of the pageant. More than 200 persons will take part, including the best dramatic talent of the city.

At the same time the pageant is being given in Danville, it will also be held in Richmond, Winchester, Charlottesville, Staunton, Roanoke, Norfolk, Martinsville, St. Timothy's School, Catonsville, Md. Application has been made from ten places in Mississippi and from Wacha, Kansas, asking for permission to join in the celebration.

**Plays at Greensboro.**  
(Greensboro, N. C. Record)  
Richard Penn, of Danville, Va., guest of Mr. and Mrs. Homer Penn, rendered a violin solo at the offertory at West Market Street Methodist church Sunday morning. His selection, which was "The Last Rose of Summer," pleased the large congregation which was present.

**Fidells Class Meeting.**  
In spite of the fast falling snow Monday evening about thirty girls of the Mottet Memorial Fidells class met at the church and held their regular monthly business meeting, which was very interesting in every respect. The chairman of the ten different committees reported much personal service work done by them and their assistants during the past month, in which work a great deal of interest is manifested by all.

**R. M. I. Students' Recital.**  
The recital given by the pupils of the Music and Expression Departments of Randolph Macon Institute, Monday evening, was well attended, considering the very inclement weather. The program which was not long, was varied and entertaining throughout.

The three readings by Misses Charlotte Miles, Nathalia Orcutt and Frances Parker were given in pleasing style and showed marked ability in each. Two brilliant violin solos by Miss Helen Sublett and Miss Theodore Estes were particularly praised, while seven varied piano solos were brilliantly executed by Misses Mary Ruth Senter, Allene Knick, Annie Ragland, Callie Yate, Yvonne Martin, Doris Walton, Lucille and Elizabeth Copeland, Kathleen Townes, Virginia Raine, Mordecai Cole.

**Song—An Open Secret—Woodman.**  
was very delightfully sung by Woodman Parker. This was, taken altogether, one of the best of the spring concerts.

**Meeting Parent-Teachers Association.**  
An interesting meeting of Danville High School Parent Teachers Association was held yesterday afternoon in the school auditorium, Mrs. James M. Shelburne presiding.

A report on the work of the Co-operative League was given by Mrs. C. D. Gaver, who attended the meeting held at R. M. W. C. Lynchburg, Va., in February. Miss Charles Anthony and Mrs. W. H. Parker read selections which were thoroughly enjoyed.

A committee consisting of Mrs. William R. Hill, Mrs. J. S. Reynolds, Mrs. Walton, and Sydney B. Hall, was appointed by the chair to nominate the officers of the association for the ensuing year. This committee will report at the next regular meeting in April.

The last number of the Lyceum course, an illustrated lecture by Dr. Julian B. Arnold, will be held this evening in the school auditorium at 8:15 o'clock.

**Wednesday Club Meeting.**  
The regular weekly meeting of the Wednesday Afternoon Club will be held this afternoon in the club rooms at 3:45 o'clock. Mrs. Louis L. Kaufman will speak on "Richmond: Its People and Its Story."

**Personals.**  
—Miss Isabel Baylor, who has been taking the rest-cure for several weeks, is rapidly improving. Tomorrow Mrs. W. D. Overbey has returned after a visit of several weeks with friends and relatives in Columbus, Miss., and other points in the South.

—Miss Nell Ingram, of South Boston, is visitor in the city, stopping at the Burton.  
—Mrs. R. G. Vance, of Waplesboro, Va., will arrive in the city tonight and will be the guest of Mrs. D. A. Overbey, 1000 Commonwealth avenue. Tomorrow Mrs. Vance will display an interesting collection of oriental embroideries, shawls and robes made by the pupils of the Presbyterian Mission schools of China and Korea. All who would be interested in these articles are cordially invited to call at Mrs. Overbey's home between the hours of 10 a. m. and 5 p. m.

—Mr. and Mrs. Fred Chaney and daughter, Freda, have returned from Lynchburg, where they went to hear Gail Curry.  
—Mr. and Mrs. H. R. Fitzgibbon are spending the week in New York.  
—Mrs. W. C. Farmer, Miss Jessie Patterson, Mrs. Judd Patterson, Mrs. A. H. Overbey, Miss Mary Hudgett, all of Chatham, were in the city Monday.

—J. Frank Broom, North Main street, has been in Charlotte several days consulting a specialist, has returned home.

—Mrs. Judd Patterson and daughter, Miss Jessie Patterson of Chatham, were in the city Monday.

—J. M. Wrenn, of Gray street, has gone to Cincinnati on a business trip.

**GERMANS FIND HUMOR IN FIRE BURSTING.** March 11.—German cartoonists and humorists were provided with a new subject recently and worked it for some time. It was the destruction by fire of a factory where fire extinguishers were made.

**GERMAN STUDENTS LIKE GLIDING.**  
BERLIN, March 11.—Aviation is being taught in the Charlottenburg Technical College. Students are especially interested in gliding and build their own machines.

## NO HICKORY LIMBS IN CERTAIN STATES

LEFT TO RIGHT: HAZEL WILLIAMS, ELSIE TARRON AND THELMA HILL.

BY JACK JUNGMEYER  
NEA Service Writer.

**HOLLYWOOD, March 12.**—Can it be that the inhibitions in censorially severe states are driving scores of their finest young representatives to the freedom of Hollywood? You tell 'em, Mr. Freud!

I've just shuffled through a sheaf of Mack Sennett 1934 bathing beauty photos and a much larger fall of applications, and I find a striking proportion of them hail from states where the clamps are tightest.

Most of the sea-going to embroidery comedies, were reared in the districts where the bath is indissolubly

associated with Saturday night and where girls are warned that if they insist upon going swimming there must be no hanging of clothes on hickory limbs. That is to say, where swimming is a dull chore, not a pagan delight.

Look at the accompanying picture of a girl from Kansas: Thelma Hill comes from Emporia—and doesn't care who knows it.

Look at Elsie Tarron. From Clarkdale, Ariz., where there aren't any hickory limbs. Elsie's making up for lost time.

To break the rule, gaze at Hazel Williams—a most disconcerting exception. She's a Hollywood girl, reared in the camera coast. And gosh, how they do seem to dread it!

though that is an unnecessary accomplishment for the Sennett nymphs who rely more upon good form in posturing on the beach than upon invading the bryny.

Prophets are reputed to be not without honor save in their own country. Similarly, if girls can't be without a complete swathing of clothes save in their own home town, there is always Hollywood.

I almost tripped on that one. Hope I have it on straight. Anyway the restrictions upon bathing suits in many of our view-with-alarm states, states both mental and geographic, are driving many in inland girls to the camera coast. And gosh, how they do seem to dread it!

Some of the members think she

## The Tangle

An Intimate Story of Inermost Emotions Revealed in Private Letters

LETTER FROM SYDNEY CARTON TO JOHN ALDEN PRESCOTT

DEAR JACK:

There are some things to me in this life that are utterly inexplicable, and perhaps the one that is most so is the fact that a man of your caliber and personality is able or has been able to draw unto yourself two such women as Paula Perier and Leslie Hamilton. Both are too good for you.

I've had a letter from Paula from which I know she went to your house absolutely decided to put the matter up to Leslie, and take her child with her as she shook the dust of Albany off her feet.

Then she saw Leslie, and was conquered. She saw how Leslie loved the child. She realized how hard it would be for her to give to the boy his proper care, and she made her greatest sacrifice, not for you, old man—I don't think you entered into it at all. She sacrificed herself for Leslie and the baby.

This may be somewhat startling to your egotism. I presume you have been thinking all the while it was because of love for you that Paula Perier did such a remarkable thing when she was in your town.

On the contrary, I'm thinking that if Paula Perier could not have forgotten you, if you were any more a factor in her life, she could not have left the boy with Leslie at all. She said nothing to me in her letter about seeing you. In fact, she only wrote me a note to tell me she had given up the boy forever.

I don't know why I'm writing this to you, Jack. I ought to let you suffer, for I have a distinct feeling that you're one of those bad little boys who can't keep out of it. Perhaps that's the great reason I'm writing to you, and all that I've said is but preliminary to what I'm going to put on paper now, which is both a promise and a threat: If ever you do get into any trouble in which a woman is concerned again, don't look to me for help, for I'll make an example of you if possible.

The whole moving picture colony in Hollywood is saying Dick Summers is in love with Paula Perier, and some of the members think she

will marry him. I don't think so. Since I have been here and have not her again I have come to the conclusion that she will never have enough trust in anyone of the male sex to marry him. She will be content, after seeing Leslie and realizing that only on ignorance is her bliss founded.

My business is almost finished here, and I shall be back home soon. I'd like very much to come and see you, but you have made it impossible for me to do so. However, you might tell Leslie that you have heard from me, and that I hope she would permit me to send to her my very great regard and best wishes always.

SYD.

**TOMORROW:** Sally Atherton gets a rebuking letter from an old friend.

**TRIPLE MURDER IN NEW YORK.**

(By the Associated Press.)

LINDEN, N. Y., March 11.—A man and two women were found murdered in a burning house here tonight. The dead are Mr. and Mrs. Thomas Whaley and Mrs. Mahel Morse. Neighbors saw flames coming from the windows of the house and they succeeded in extinguishing the fire. A search of the house disclosed three murdered persons.

## FEELS LIKE WORKING NOW

Reading Man, Ill Two Years, Gets Rid of Pain Around Heart

"I had severe indigestion, which caused pain around my heart," writes Thomas Forbes, 348 N. 4th Street, Reading, Pa.

"I had been suffering from this and other troubles, too, for about two years. Since taking Munyon's Paw Paw Tonic I feel a lot more like working. My food digests well and I enjoy my meals again. I sleep much better, have better appetite and much more pep and energy."

Munyon's Paw Paw Tonic improves the appetite, helps digestion, rests nerves, remedies stomach troubles and produces restful sleep. Try a bottle now. Do not delay longer. It costs only \$1. Get it at any first-class drug store. "There's a Munyon Pill for Every Ill." Munyon's, Scranton, Pa.

FRANK McFALL'S

## FASHION NOTES

### PLAID SILKS.

Plaid silks are used extensively on millinery this year. Rosettes, bows and bands of it do wonders for tiny clothes.

### BRAID BINDING.

Severely tailored suits of gray, tan or beige satin are sometimes bound with a fine silk braid or outlined on the edges with a darker shade.

### DRESSING JACKETS.

Dressing jackets to be worn while going through the morning and evening facial massage are made of washable chinin, with lining, collars and cuffs of rubberized taffeta.

### GRAY FUR.

Gray fur is used very effectively to collar and cuff a straightline coat of white silk crepe.

### SCARF COLLARS.

Wide faille or satin scarfs are used instead of collars on topcoats of imported tweed or kasha.

### WOODEN BUTTONS.

Wooden buttons, carved with unusual designs, or sometimes painted to give an enameled appearance are used on jersey frocks.

### BIRD WINGS.

A cloche of white kid is trimmed with tiny sets of bird wings in all shades of yellow and orange.

### BOWS ON PUMPS.

Tailored bows of grosgrain ribbon are again being shown on pumps of patent or dull kid.

### WEDDING LICENSES.

Marriage licenses have been issued by the clerk of the corporation court: James Walker and Louise Adams, colored, Danville.  
Robert H. Pyron and Elizabeth Frances Wells, Danville.

## HELPFUL HINTS

### CARROTS AND TURNIP

Carrots and turnips are apt to become shriveled if they are stored in the kitchen for any length of time but they are still good for flavoring soups and stews.

### FRESHEN FLOWERS

To freshen crushed and faded flowers touch the backs of the petals thickly with gum arabic and let that dry, then dip in gasoline and remove quickly and wash in clean gasoline to which a tube of oil paint has been added.

### TO CLEAN LACES

Laces or embroideries that are not too badly soiled may be cleaned successfully at home by basting them to a rack in a mixture of cornstarch and calcined magnesina in equal parts.

### SILK DUSTERS

Silk dusters are best for use on pictures and picture moldings.

### SAVE FLOORS

Glue rounds of felt to all your chairs and tables that do not have castors and there will be no marks on your polished floors.

### MONOGRAMS

If you have handsome monograms or embroidered motifs on linen that has become worn and shabby, you can transmute them to new pieces by pointing with crochet work or lace braids.

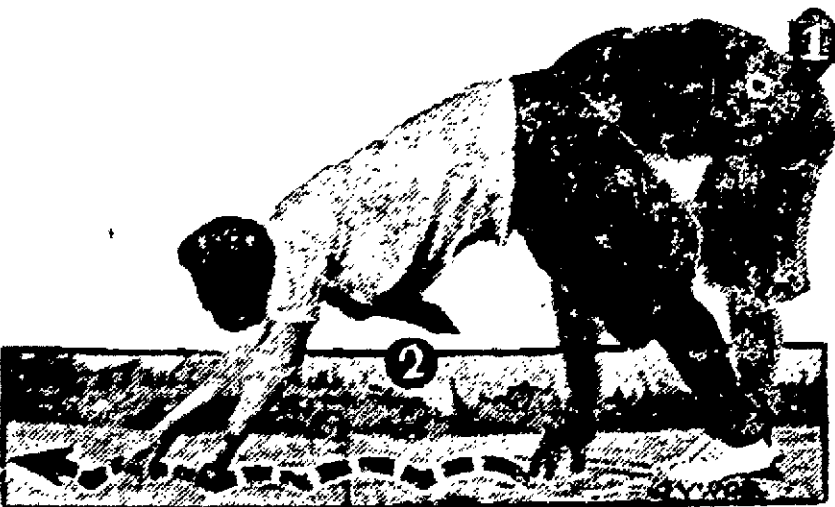

### KEEPING LARD

Lard should be kept in glass or bright tin, tightly closed in a cool, then rinsed in milk.

### BRONZE ORNAMENTS

Bronze ornaments should never be washed. Instead dust carefully and wipe over with a soft cloth moistened with paraffin oil, then polish with a chamois.

## Exercise For Thigh and Back

BY JANE BELLON

Athletic Director, National Board Y. W. C. A., and Author of "Individual Exercises"

Standing feet parallel, slightly apart, bend forward, and downward,

touch floor with finger tips and walk forward on hands, keeping feet in place, until body is straight. Walk back on hands to standing position. This is a good general exercise for all the big muscles of the body, especially those of the thigh and back.

## WARMED OVER MEAT

A few cloves added to your warmed over meats will give a little added interest to the flavor.

## FLOOR CLOTHS

The upper parts of discarded stockings make excellent dusters and floor cloths.

For NEURALGIA & HEADACHE

## TO CLEAN LACES

Laces or embroideries that are not too badly soiled may be cleaned successfully at home by basting them to a rack in a mixture of cornstarch and calcined magnesina in equal parts.

## Methodism's Forgotten Man

The Southern Methodist church is taking steps at the present time to raise an endowment fund of ten million dollars in order to afford pensions for ministers who have grown old in the service and who, because of physical infirmities, are no longer able to carry the gospel to the people. The quotas for every church in the many hundreds of districts in the Southern church area have already been determined. All of the Danville churches of that denomination have assumed their proportionate part of the money and in some steps are being taken already to secure pledges. The money will be raised over a given period in order that the demands made may be more lightly borne than would be the case if the total sum were asked for immediately. The accompanying illustration is from a drawing depicting the type of man who will be a beneficiary under the pension plan. Most of these ministers, now well advanced in years, are in a sense pioneers. Many of them in their prime suffered the hardships of the pioneer for theirs was the duty of riding the circuit in all weather, winter and summer, on horse back or on mule back with their scant belongings slung in their saddle bags. This was before the development of a tremendously efficient church organization which has developed since the day of the circuit rider. The prospective pensioners are men who suffered from actual want with a philosophy born of real godliness, but who "carried on" fired by zeal. Such men as those depicted above have spent the best years of their lives in the service of God and humanity. It is a far cry from the day when the minister was required to give the highest type of personal service to the present day when the ministry enjoys automobiles as gifts from their congregations, secretaries to relieve them of clerical details and other creature comforts which the old circuit rider knew nothing of.

## RADIO SIGNAL TRAVELS 8,500 MILES IN 0.054 OF A SECOND

(By The Associated Press.)  
WASHINGTON, March 12.—What was said to have been the first attempt at accurate measurement of the velocity of radio impulses was made here last night by experts of the radio corporation of America. Using a photographic record was produced by an indicator attached to the receiving set and the time was measured by the distance between the photographic impressions on the film.  
In calculating the transmission time of the radio signal, a careful figured deduction was made for the slower wire transmission between the sending and the broadcasting point on this side and between the receiving and sending stations at Warsaw, Poland.  
A powerful 14-tube receiving set caught the signal as it was sent from the Radio Corporation's office in New York and again as it came back on a lower wave length from Warsaw. The photographic record was produced by an indicator attached to the receiving set and the time was measured by the distance between the photographic impressions on the film.

## Something More!

After meals you want something more—a bit of sweet with a change of flavor. WRIGLEY'S is that "something more" and it's more than that! It is a great aid to your good health, as medical authorities say.

This is from a recent book on health: "Many physicians now recommend gum chewing . . . for a better and more complete change of the starches into dextrin."

## WRIGLEY'S after every meal

—means that your digestion is aided while your pleasure is served; teeth and digestion both benefit. Your choice of several flavors, all of the WRIGLEY quality—sealed in its purity package.

Wrigley's makes the next cigar taste better. Double Strength Peppermint Flavor. Sloan's Liniment—kills pain!

## However, —comma

—By Maurice Henle.

NEW YORK, March 12.—Roaming around Broadway for a week I saw Ann Pennington of Ziegfeld Follies fame and Brook Johns. . . . He plays the banjo while Ann dances and you can't imagine a happier-looking couple. . . . saw Morgan Farley in the new Guild play "Tate Morgan" portray splendidly the part of a youth of 18 who has never been kissed, a species apparently extinct.

Saw Van and Schenck, the headliners, who know how to get a song over better than any made team in vaudeville. Some of their comic songs aren't funny, but the audience laughs anyway, why I don't know, but they do. . . . saw the new "beetle-boat" used by U. S. Marines in one of the movie news weeklies; it's a new boat used to transport marines and also holds artillery, and was impressed by the lack of secrecy shown by the War Department by allowing this new invention to be filmed.

Saw Tom Meighan at the Astor talking with friends: Tom has a host of friends, being one of the best liked men on the screen. . . . saw Bebe Daniels who is playing with Valentino in the new forthcoming picture "Mon-sieur Beaucaire." Bebe tells me she will be in the east for about a year and that she likes to work in New York but would rather live in California.

For out-of-town visitors, this reviewer suggests the following plays as worth seeing: "Outward Bound," "Seventh Heaven," "Rain," "Sun Up," "Tarnish," "The Swan," "Cyra-no de Bergerac," "The Show Off," "Geggar on Horseback." Outstanding musical revues are "Charlotte's Revue of 1924," "The Follies," "Music Box Revue," "Stepping Stones."

Some startling statements are contained in "Psychoanalysis and Man's Unconscious Motives" (Brentano's), completed just prior to the death of its author, Andre Tridon. Tridon knew human beings, knew them to the discomfort of the human beings. His shafts strike home, and though often debatable are in the main, true.

One chapter in the book carries the heading: "Are Women 'Natural Lovers'?" Only psychoanalysts of the stripe of Tridon or Freud would have the courage to ask such a question. There is no denying that, all other things being equal, women like much more than men do. There is no denying, either, that we judge a woman by the number of lies which she can gracefully tell. The woman who, however familiar she may be with a gross sexual details, convinces us of her absolute ignorance of them. His shafts strike home, and though often debatable are in the main, true.

Without ever telling them the truth

## Overnight Features

BY THE ASSOCIATED PRESS

Washington, Mrs. Woodrow Wilson withheld permission for publication of the late former President Wilson letters and manuscripts until she determined how they will be published as a whole and in an authorized way.

Paris: The report of the Senate committee of reparations experts will be virtually finished Saturday night.

Chappaqua, N. Y.—The special train carrying Mrs. A. H. Smith, widow of the late president of the New York Central Railroad, arrived after a record run from Los Angeles, in 69 hours and 15 minutes, 18 hours and 15 minutes less than ordinary running time.

London: William Leach, Great Britain's under-secretary of the air ministry, was heckled for introducing the air estimates amounting to \$19,389,000 gross, \$4,511,000 net in the House of Commons.

about childbirth, is generally held to be a perfect lady.

Dreams, of course, come in for discussion. Every detail of every dream is, without exception, the fulfillment of a wish Tridon writes, and adds he can't emphasize that too strongly. Tridon believes nags are sick persons. "Don't fight with a nag, don't reason with him or her," he writes. "The nag feels obscurely his inferiority but would be the last person in the world to admit that inferiority. Do not mind being nagged. It is evidence of your absolute superiority to the naggy life." But understanding a nag is not enough. Helping him . . . her to rise to your level . . . he will not take kindly to that sort of advice at first but will love you some day for it."

Tridon believes that people who "gush" and raise others too much are weak, but he thinks people who never praise are more "sinister, more cowardly and more inferior."

U. OF CALIFORNIA GIRLS STRONG FOR OUTDOOR SPORTS  
BERKELEY, Cal., March 11.—The department of physical education of the University of California reports 1,138 women students enrolled in outdoor sports, an increase of 657 over last year.

Rifle shooting is the most popular campus sport open to girls, with 292. Tennis comes next, with 249, and then basketball, with 235. Swimming is so popular that 234 girls take a daily dip in the outdoor campus tank and 129 members of the girls' riding club are seen on the paths daily.

Among the tennis players in Helen Wills, national women's champion, who is completing her freshman year.

Stomach Comfort For Good Eaters  
No Sour Risings, Gasiness, Heartburn and Distress of Indigestion. If You Follow Meals With Stuart's Dyspepsia Tablets.

They may talk about balanced rations, calories and all that, but most people enjoy eating the good things they see before them. What they want is the simple means of stopping gasiness, sour risings and such distresses if they come.

A host of people use Stuart's Dyspepsia Tablets because they give the stomach the alkaline effect, they stop the gas, they sweeten the stomach; they aid digestion in the stomach; they are balanced to do just these things, and you can rely upon this relief every time. Get a 60-cent box of Stuart's Dyspepsia Tablets at any drug store and you will eat your pie and cheese, steak and onions, sturgeon and buckwheats, cream in coffee and defy old man dyspepsia.—adv.

Children Cry for "Castoria"  
Especially Prepared for Infants and Children of All Ages

Mother Fletcher's bbCastoria has been in use for over 30 years as a pleasant, harmless substitute for Castor Oil. Paregoric, Teething Drops and Soothing Syrup. Contains no narcotics. Proven directions are on each package. Physicians everywhere recommend it! The kind you have always bought bears signature of

Standard for over two generations

You can count on your fingers products which have maintained supremacy in their field for two generations or more.

To please the public year after year for over fifty years is a severe test. That is what the products of the Standard Oil Company (N. J.) have done.

"Standard" Polarine Oils and greases have become standards of comparison, each in its class. When you buy a "Standard" product you can be sure that you are buying as good a product as is made. But the only way to be sure of getting it is to ask for it by name.

STANDARD OIL COMPANY (New Jersey)  
Buy the best oil but buy it by name—and the name is "Standard" Polarine

"STANDARD" Polarine  
A definition—"Standard" a criterion established by custom, public opinion or general consent.—The Century Dictionary and Cyclopedia.

NEWSPAPER ARCHIVE

## THIRD PARTY GETTING BUSY

To Hold National Convention in Minneapolis June 17 to Select Candidates For President and Vice-President.

(By the Associated Press.) ST. PAUL, Minn., March 12.—A national convention to select candidates for President and vice-president on a third party ticket will be held in Minneapolis June 17 as the result of a call issued yesterday at a meeting here of representatives of 13 organizations from eight states.

The farmer labor party was prominently represented at the gathering which extended invitations to all farmer and labor political organizations to attend the national conference.

Six of the 13 accredited delegates refused to sign the invitations, one of their principal objections being the inclusion of socialist representatives in the invitations.

Public ownership, government banking, public control of all natural resources, restoration of civil liberties, the abolition of the injunction in labor disputes were planks in the tentative platform adopted. Organizations sending delegations to the national conference must endorse these planks.

While there was no one officially endorsed or suggested as a presidential candidate, the name of Senator Robert M. La Follette, of Wisconsin was mentioned as a possibility.

## WIRE DAMAGE BY STORM IS HEAVY, RY. COMPANY HAVING MUCH TROUBLE

The material damage done last Monday by the snow storm and high gale in this section was better revealed today as result of fairly comprehensive reports secured by the wire companies serving Danville and the Southern Railway company. Actual damage done north of this city was heavier than that done by the recent sleet. Danville escaped the full brunt of the wind and the snow, though it fell for 24 hours, didn't cling to the surface appreciably until Monday night when the mercury sank below freezing.

In the rural sections surrounding Danville especially in exposed places, the wind and snow together caused unusual results for this latitude. W. L. Young, wire chief of the Chesapeake and Potomac Telephone company, reported that snow drifts were so high between here and South Boston that no appreciable headway could be made yesterday in restoring the broken lines of communication. He cited one instance on the road near Kentucky where a snow drift 12 feet high in the road blocked progress of the repair gangs and truck yesterday. This was in a cut, the wind driving the snow over the bank and depositing it in the road bed until the snow level was as high as the bank and literally hid the course of the road. Linemen reported that this drift was high enough to completely cover a Ford car, their deep drifts were common on this road.

The Southern Railway company is experiencing the worst trouble in many years, in fact at the headquarters office of the northern division this morning it was stated that conditions were unparalleled and that it would be several days before normal train schedules could be maintained. North of Lynchburg, between the Hill City and Washington the worst trouble was experienced. Trains coming south literally had to "chop their way" through on account of hundreds of poles being blown over across the trunk lines. This and a similar, though less severe condition prevailing south of Danville left Danville virtually without train service throughout the daylight hours yesterday. The southern train due here yesterday at 6 o'clock in the morning steamed into the depot at about 9 o'clock last night. Twelve hundred transmission wires are down between Alexandria and Monroe. There are no wires south of Arlington. All trains are running under control at all times in the affected area and this naturally is delaying them many hours as they proceed further south. Efforts are being made just now to restore the semaphore signal service wires so that the trains can run at normal speed. This has been already

## Annual Sugar Report Announced

(By the Associated Press.) NEW YORK, Mar. 12.—The American Sugar Refining Company received profits of \$8,508,168 in the form of investment income and interest in 1923 of which \$6,552,487 was reported income from investments, largely in sugar producing companies, says the annual report made public today. This amount with \$2,855,675 interest earned was sufficient to report a net profit of \$9,408,163, or \$1.69 per share, after providing for depreciation, bond interest and preferred dividends, and leaving a balance of \$88,107 for the company's various investments.

Sales of the company totaled \$200,000,000. Sugar refiners had all the ups and downs of a ten year pre-war period crowded into 1923. Earl D. Babst, president, asserted the company's inventory fluctuating as much as \$2,500,000 in a single day.

Mr. Babst said he regarded the development of exports as an important factor in the company's expanded production.

The two million ton gain in European sugar production in the last four years has been almost as large as the eight year gain of the United States. Field under war pressure, he asserted.

"There is bound to be a race for the sugar markets of the world," he said.

## INVITE MELLON TO GIVE VIEWS ON TAX PLAN

Turned Down by House, His Proposals Are Now Before Senate Finance Committee.

(By the Associated Press.) WASHINGTON, Mar. 12.—Secretary Mellon, whose tax reduction proposals were turned down by the House, was invited to present his views today to the Senate Finance Committee, which now is considering the revenue bill.

Mr. Mellon's program called for normal taxes of 3 per cent on incomes below \$4,000 and 6 per cent above that amount instead of the present four and eight per cent rates. The House adopted the Longworth compromise which provided normal rates of 2 per cent on incomes below \$4,000, 5 per cent on incomes between \$5,000 and \$8,000, and 6 per cent above that amount.

Mr. Mellon also proposed a revision of the surtax rates with 25 per cent as a maximum applying to all incomes above \$100,000. The Longworth compromise provided a maximum surtax of 37 1/2 per cent applying on incomes above \$20,000.

The treasury and Chairman Smoot of the Finance committee have estimated that the House bill would reduce revenue too much and Mr. Mellon's views were sought with special reference to this problem.

Little hope was held out today for immediate action on the proposed resolution providing for a 25 per cent cut in income taxes payable by the year specified by Congress in message yesterday by President Coolidge.

Chairman Green, of the House Ways and Means committee, which would take up legislation first, declared yesterday, it would be impossible to get the resolution through both houses of Congress before Saturday when installment payments for the revenue bill passed by the House provides for this retroactive reduction.

## "Al" Starling Is Elected President of Country Club

A. D. Starling was last night elected president of the Danville Country Club to succeed John E. Overby whose year's tenure of office is expiring. Mr. Starling's election was made by the directors after the directorate had been chosen by the stockholders who gathered in annual session in the rooms of the Chamber of Commerce.

The retiring president presented a highly interesting and gratifying report of the year's work this also showing that the club has \$1,500 in surplus and that the club quota of membership is filled to the limit with a waiting list showing the revived interest in what years ago was known as the Rock House Wheel Club established in the city.

The membership now includes 200 men and 100 women which is the full limit under the club's constitution. Another interesting fact developed during the meeting, one which is probably not well known without the immediate membership. The Country Club no longer owns the club, property but rents the club house and grounds from the Riverside and Dan River mills Inc. This change date back to the time of the fire which destroyed the club house and which was rebuilt by the mill corporation.

The full roster of officers is as follows: A. D. Starling, president; E. T. Estes, vice-president; C. L. Booth, treasurer; Miss Kate Watkins, assistant treasurer. The directorate is composed of fifteen members.

Mr. Starling contemplates appointing his committees without loss of time.

## WEATHER FORECAST

(By The Associated Press.) WASHINGTON, Mar. 12.—Virginia: Fairly cloudy; today and Thursday: no change in temperature; Northwest gales.

North Carolina: Fair tonight and Thursday; no change in temperature; frost tonight; strong west and northwest winds.

## SIGNIFICANCE ATTACHED TO BRITISH FLEET MANEUVERS

(By Chicago Tribune Service.) LONDON, March 12.—Great significance is attached here to the British fleet maneuvers now in progress in the Mediterranean off the Balearic Islands—under the eye of Admiral Lord Beatty and further to the fact that this great gathering of ships is the beginning of a transfer of the bulk of Great Britain's naval power from the Atlantic and North Sea to the Mediterranean.

It will be remembered by students of pre-war naval history that the late Lord Fisher transferred the fleet from the Mediterranean when the German menace became serious and events justified his foresight. Lord Beatty, who was trained in the Fisher school, is following the Fisher maxim of having the fleet in waters where it is likely to be used.

A glance at the map will show that the scene of the present maneuvers is on a line between France and its African colonies from which it is planning to draw most of its manpower in the next European war.

The complete redistribution of the fleet has been decided on. The North Sea fleet practically disappears, its work having been done with the disappearance of German naval power. The Atlantic fleet has been greatly weakened, its functions having been absorbed by the Washington naval pact and the excellent relations between American and Great Britain. The Mediterranean fleet plans include one battle squadron of eight ships, two light cruiser squadrons of eleven ships, four destroyer flotillas and 35 ships with aircraft carriers and other auxiliaries.

The number and strength of submarine flotillas and chasers has not yet been decided, but it will be distributed by Lord Beatty with Admiral Sir John De Robeck, of the Atlantic fleet and Sir Osmond De Beauvoir Brock of the Mediterranean fleet. Much will depend of course on the French strength in these waters for there is no use concealing the fact that Great Britain is anxious and alarmed by the French military preparations.

This anxiety was clearly reflected.

## The Well-Dressed Man

This day dress outfit is a dignified combination that is becoming more popular than ever throughout the country.

The two or three-button coat of cheviot black with fancy weave or dark Oxford gray, with vest to match and striped, worsted trousers may be obtained for \$85 and up. To make the combination even more serviceable many men purchase trousers to match the coat and vest.

The hat worn with this combination is a pearl-gray, with extremely light-gray edging. The price is \$10. Tie of black and gray check—the "Prince of Wales" design—as pointed ends and succeeds the blue and white polka dot in popularity. It is the very latest. Price \$2.

A royal zephyr weight shirt with wide-pleated front, fastened with either buttons or studs, and double French cuffs costs \$5.

The collar, either as shown and also in round-cornered models costs 35 cents.

Washable, white buckskin gloves are \$5 and the Malacca stick with sterling silver or gold top sell from \$10 up. The pearl-gray spats are \$4 and up.

Patent leather shoes with stitched tip are \$13.50.

Total cost \$134.85.

## PRES. COOLIDGE ORDERS THAT WASHINGTON BE "DRIED" UP

(By the Associated Press.) WASHINGTON, March 12.—An effort to settle the much-argued question of the effectiveness of prohibition enforcement in Washington has been ordered by President Coolidge as a result of the charge by Dear Admiral Charles P. Plunkett, commandant of the Brooklyn Navy Yard, that the capital is the "wettest city in the United States."

The president, upon learning of Admiral Plunkett's statement during a police trial in New York, immediately summoned Prohibition Commissioner Haynes and instructed him to find out if the Brooklyn commandant had been correctly quoted and if so to ascertain the basis of his information and initiate an investigation looking to correction of the alleged condition in the capital.

See Hugh and Otis Petty in "The Old Tyme Choir."

STORM WARNING ISSUED. WASHINGTON, March 12.—The weather bureau today issued the following storm bulletin:

"Advisory 10 a. m. northwest storm warning continued Virginia capes to Savannah, and warnings changed to northeast of Virginia capes to Eastport, Maine. Disturbance some distance east of Cape Cod and advancing east-northeastward."

## EFFORTS FOR SOLUTION OF TUT CONTROVERSY COLLAPSE

(By The Associated Press.) CAIRO, Egypt, Mar. 12.—Negotiations for a peaceful solution over the controversy of King Tutankhamen tomb collapsed and the Egyptian government has withdrawn its offer of a new concession to the Countess of Carnarvon to carry on the work in the tomb begun by her late husband. Breaking off of negotiations was

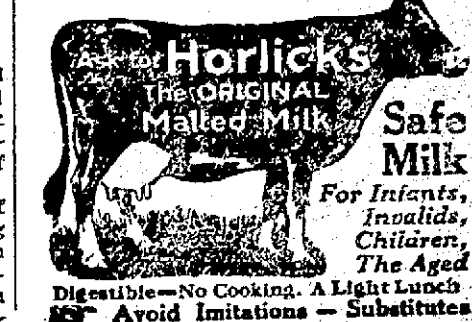

due to a remark made in court last night by the lawyer representing the Carnarvon trustees, who referred to the Egyptian initiators who closed the tomb at Luxor as handits.

Until that time it had seemed that through the efforts of Professor Breasted, American Egyptologist, Howard Carter and the trustees would reach an agreement with the Egyptian officials.

## Special Grand Jury Called to Probe Race Clash

(By the Associated Press.) CAIRO, Ill., March 2.—A special session of the regular February grand jury of Alexander County circuit court convened here today to investigate racial trouble in the vicinity of Elco, Illinois.

The investigation is the result of disturbances incident to the bringing of negro cotton pickers of the South into this district by Israel Cauble, Elco, Ill., merchant and farmer, which included an effort to dynamite Cauble's home, the wrecking by dynamite of a house occupied by negroes, the burning of another house and the firing into a negro tenant building, resulting in the injury of one negro.

## Make Rough Roads Seem Smooth

IT TAKES a tough tire to withstand rough roads. The old tires on your car are likely to be ruined by rough highways. If you have a couple of tires that have a few hundred miles left in them, use them as spares. Don't try them out on rough roads and make tire trouble a certainty.

You can plow through mud and over broken roads with Goodyear Tires where weaker tires would go to pieces. Let us show you why Goodyear Tires, Tubes and Accessories are best for all purposes. We can prove to you that they will reduce your mileage cost.

### SWEDISH BANK REPORTS SHOW GOOD PROFITS FOR LAST YEAR

STOCKHOLM, March 11.—Industrial and financial circles of Sweden are gratified over the healthy condition of Sweden's banks as shown by their annual reports for 1933. Nine of the banks which have thus far reported show a combined net profit of \$11,000,000 with dividends ranging from six to 15 per cent, and an average dividend of 9.6 per cent. The reports indicate that the expense accounts of the banks were considerably lower in 1933 than in 1932.

### CONVENTION OF "THIRD PARTY" ORGANIZATIONS CALLED

(By The Associated Press.)  
ST. PAUL, Minn., March 11.—Call for a national convention of political organizations favorable to the "third party" movement to be held in St. Paul June 17, was issued here tonight by a conference of delegates from eight states.

The purpose of the convention as stated in the call is to nominate a president and vice president and adopt a national platform. The thirteen organizations were represented at the conference which adjourned tonight.

Senator Robert M. LaFollette, of Wisconsin, was most prominently mentioned as the probable choice of the June 17 convention for the presidential nomination.

### PROMINENT MASON DIES

(By The Associated Press.)  
LYNCHBURG, Va., March 11.—Daniel Trigg Walker, 70, widely known Mason, custodian of Hill City Lodge since 1907, died in a hospital here tonight after an illness of several weeks. Mr. Walker had lectured to Masons for forty years and it was said of him tonight that probably no man in the State had passed on to more younger Masons the knowledge of Masonry. He was a descendant of Colonel William Byrd, of Westover, and grand-son of Ann Ursula Byrd, the first Episcopalian in Lynchburg.

ANCHORAGE, Alaska, March 11.—Trainmen and engineers who have served five years on the government's Alaska Railroad are to have annual passes over the line. Lee H. Lewis, the manager, announced before he left recently for Washington, D. C. The passes are granted "in appreciation of loyalty and good will."

(By The Associated Press.)  
NEW YORK, March 11.—The American Cable Company, received from Puntia Arenas, Costa Rica, the following message: "Two severe earthquakes shocks were felt here early today, many buildings suffering."

"The Minister of Public Works ordered all houses abandoned and notified the people to seek safety in the open. Cable communication was not impaired."

## The REFEREE

BY ALBERT APPLE.

## NAMES

More Johns in America than any other name. After John comes William, then James. This is shown by checkup of many city directories. Religious names, from the Bible, exert a great influence when it comes to naming the average child. Just why John leads all other names in popularity should interest the clergy. It unquestionably indicates a very definite preference, admiration or interest.

Once started, of course, names become hereditary. It takes courage to give a child a name that isn't as common as dandelions.

## SPEED

The Twentieth Century Limited was paid seven and a half million dollars by its passengers in 1923, financial report reveals. Tragic is increasing on this famous train, which some days travels in as many as six sections.

The "Century," being a speed creation, is typical of the generation in which we live.

## DOLLAR

The whisky king, Sir John Stewart of Scotland, commits suicide. It's said he was swindled out of five million dollars by American bootleggers. They neglected to pay for the Scotch whisky he furnished for transport to America.

If Stewart had it to do over again, he'd put more faith in guarantees and less in human nature. A Scotchman trusting bootleggers with five million dollars, is surely the eighth wonder of the world.

## SUPREME

Ford gets ready to make 10,000 cars a day. Already he's turning out over four-fifths that many.

The best equipped auto works in Europe is supposed to be the Fiat plant in Italy. It cannot make more than 200 cars a day.

Young men, in particular, should read this twice. It is typical of industrial supremacy in America. There are other kinds of supremacy, and in many of them we have room for improvement. Ours, however, is an industrial civilization. Higher art and culture will come later, symptoms of decay.

## RED-HATS

Suit cases are getting larger, approaching trunk-like dimensions. And tips from travelers are shrinking. So lament the Red-Hats who carry luggage between railroad station and train. In some sections, it's complained that the average tip is only seven cents. People have learned a lesson in economy. Fewer quarters and halves are tossed about than in the post-war boom when money grew on trees.

The Red-Hats say there's only one human practice that hasn't changed—the tendency, of travelers with the heaviest luggage, to pay the Red-Hat the least for his services.

## DUSTY

In the air above each square mile of the average city there are 950 tons of dust. So estimates United States Public Health Service.

This will not surprise any woman who does her own housework.

## IMMENSE IMMIGRATION SWINDLE IS REVEALED

By ROBERT T. SMALL  
(Copyright, 1924, by The Bee)  
NEW YORK, Mar. 12.—Cruelties practiced in the "bootlegging" of immigrants into the United States have stirred the immigration authorities here into a new appeal to Washington to make a thorough investigation on the subject.

The plight of a young Italian girl, Maria Matelli, who is about to be deported because she arrived here after the Italian quota had been closed until next July 1, has pointed out the necessity of the new inquiry, which may be extended to European countries where the bootlegging plots are formed.

It is not alone the violation of the United States laws which has aroused the ire of the officials, but the hardships of the innocent victims of the plots.

Virtually all of the immigrants from Europe who found their way into the United States over the Mexican or Canadian borders pay for their which they believe will be direct passage into New York City. After their money has been taken by the schemers, they are chucked together in all manner of leaky vessels and dumped mostly in Cuba or in Mexico and left, in a majority of cases to find their own way as best they can to the hoped for promised land.

Both in Mexico and in Cuba, they are frequently arrested for violation of the immigration laws in those countries or for petty thefts they are compelled to commit to eke out a miserable existence.

Maria's story has bareed an immense immigration swindle. It has been known for a long time that "bootlegging" was in effect but the villainy of the system has been lost to sight in the consideration of the technicalities of the federal laws committed by each and everyone of the individual sufferers who have toiled their way into American territory after being dumped on an unfriendly coast.

Now an attempt will be made by a appeal to foreign countries to stop the fraud on the other side of the water. Orientals long have been

smuggled into the country at so much per head. In their cases, the American authorities have wasted no sympathy for the immigrants were party to the fraud. With the European immigrants there is a difference.

More than six months ago, Maria's brother, Giacomo, who lives in Detroit sent for her to come from their old home in Italy. He sent her plenty of money to pay for good accommodations in the steerage and on the trains. He also sent for her in plenty of time to come within the Italian restriction quota.

Maria was happy when she received the invitation to go out to America and the money for her passage. Maria was sent to St. Lazaire, France. That was where the first American soldiers landed in France.

In St. Lazaire the girl met several score of her fellow countrymen, all waiting for passage to America on the "big liner" which had been promised them. They were kept waiting there until after last Christmas. That was the time the Italian quota in America had dwindled to the vanishing point. The immigrants were housed in squalid quarters. At last after many protestations from them, they were bundled together and placed on board an old freighter, a tramp steamship, instead of steaming out for New York as they supposed they landed in Vera Cruz. The girl told pitifully of how all the miserable hundred gathered on deck at sight of land and looked in vain for the statue of liberty which all had been told was to be the beacon of their new life.

Shoored ashore in Vera Cruz and left to their own resources, some of the immigrants were deported by the Mexican authorities. Others remained among them, Maria and got as far as Monterey, where they were arrested. From Monterey, Maria got word to her brother in Detroit. He arranged her release and she was sent to New York. She has a brother in Cuba and will go there until the laws permit her once more to enter America to stay.

## Bribe Charge Is Political Trick Nations Avers

(By The Associated Press.)  
ST. LOUIS, March 12.—The inquiry into the alleged statement that a state official had accepted \$15,000 for "protection" of the Griesedieck Brothers Brewery in the distribution and sale of real beer in St. Louis, is charged in a signed statement by Herbert Nations, state commissioner of the Bureau of Labor statistics, as "a political plot" aimed to remove his brother, Gus Nations, federal prohibition enforcement officer, from office.

Nations further charges that the investigation aims to "ruin the Republican state administration" and to seize "control of the prohibition enforcement machinery of the state."

The Globe-Democrat states that Raymond R. Griesedieck, secretary-treasurer and business manager of the brewery, is the official who made a statement charging that a state official had accepted "protection" money.

PLEDGE FOR COOLIDGE

(By The Associated Press.)

MANCHESTER, N. H., Mar. 12.—Returns from yesterday's presidential primary in New Hampshire, show election of the eleven delegates to the Republican National convention, pledged to President Coolidge. U. S. Senator George H. Moses, the only one of eight candidates for delegates at-large who refused to pledge himself for Coolidge, ran last on the ticket.

All Democratic contestants stood unpledged.

BOMB EXPLODED AT BRITISH LEGATIONS

(By The Associated Press.)

ATHENS, Mar. 12.—A bomb was exploded early today at the entrance to the British legation, causing material damage, but injuring no one. Greek officials expressed belief that the incident was staged in an effort to discredit the government.

## TICKER TALK

Thomson &amp; McKinnon.

NEW YORK, March 12.—Special meeting of Norfolk and Western directors today. May consider lease to Pennsylvania.

Conference of thirteen organizations at St. Paul issues call for third party convention there to nominate presidential candidates.

Tennessee Oil declared dividend of \$1.00.

Burns Brothers declared regular quarterly dividends on preferred stocks.

I. R. T. declared quarterly installment of \$1 on Manhattan Railway dividend rental.

Mammoth Petroleum stockholders approve increase in capital from \$84,000,000 to \$88,000,000.

Average price twenty industrials \$7.51, up 69, twenty rails \$8.53, up 32.

## NEW YORK STOCKS.

(By The Associated Press.)

NEW YORK, March 12.—Stock prices displayed a firm tone at the opening of today's market, overnight buying orders being well distributed throughout the list. American Sugar, which was offered freely yesterday in anticipation of a poor 1923 earnings report, opened a point higher. Good buyers also were noted in Southern Railway and Norfolk and Western.

## NEW PRODUCTION RECORD

(By The Associated Press.)

WASHINGTON, March 11.—A new high record gasoline production was established in January. Bureau of mines reports show an output of 65,222,566 gallons.

## COAL STONEGA COKE

## Why Contract for Coal?

Coal peddling is a great business—for the peddler. But its hard on the engineers who must keep up the efficiency of their power plants on coal that they know little or nothing about.

A contract for Admiralty provides your engineer with a fuel that he can bank on to produce a fixed amount of horsepower per ton and enables you to determine your operating costs accurately.

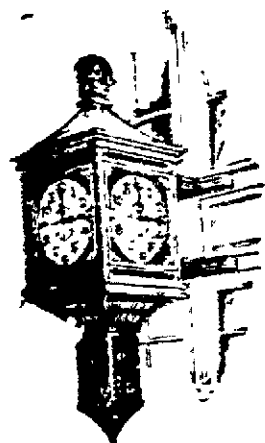

Admiralty is clean burning, high-quality coal, of remarkably uniform quality. Reliable shipments, plus stable prices make its use imperative where boiler room efficiency must be maintained.
